

Municode Mobile Online Codes

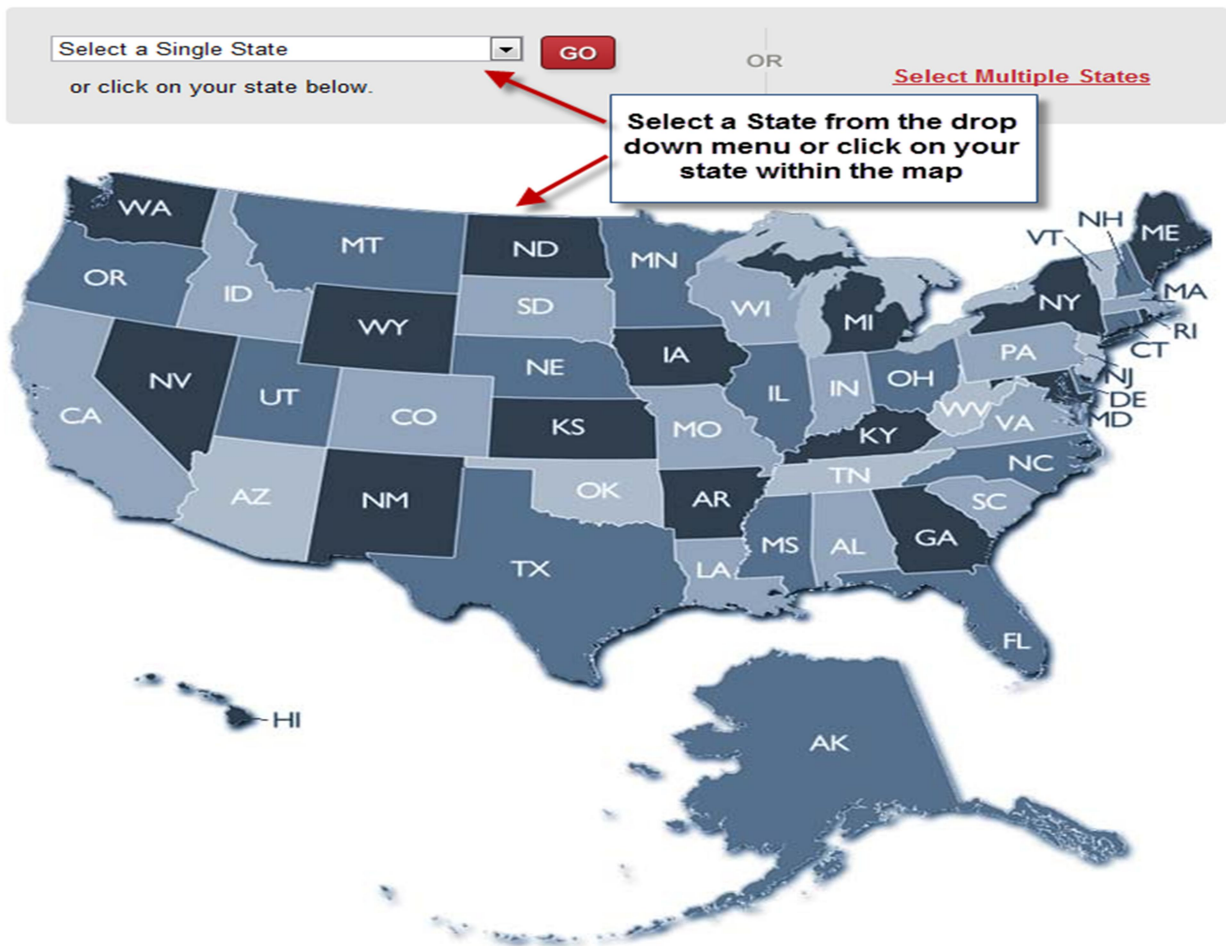

From a Smart Phone, or Tablet with full internet access start at our main page by navigating to www.municode.com and then select the Code Library tab at the top. There is nothing for you to download, or sign up for.

The screenshot shows the Municode website interface. At the top left is the Municode logo with the tagline "The nation's leading legal publisher." To the right of the logo is a navigation menu with the following items: "CODE LIBRARY" (circled in red), "ONLINE SERVICES", "CODIFICATION", "PLANNING", and "ABOUT US". A red arrow points from the "CODE LIBRARY" menu item to a white box containing the text "Select Code Library". Below the navigation menu is a large banner area. On the left side of the banner are images of a desktop monitor, a tablet, and a smartphone, all displaying the Municode website interface. To the right of these images is a text block that reads: "All your city's codes, right at your fingertips. At Municode, our goal is to provide you with the easy access and an intuitive interface to over 2,700 online codes spread throughout all 50 states. While browsing our Code Library, you'll find that these codes are available on any platform - desktop, tablet, and mobile." Below this text is a red button with the white text "BROWSE THE LIBRARY". The background of the banner features a stylized city skyline.

At the next screen you will need to choose the State from the drop down menu or by clicking on your state.

Code Library

The screenshot shows the "Code Library" selection screen. At the top, there is a search bar with the text "Select a Single State" and a dropdown arrow. To the right of the search bar is a red "GO" button. Below the search bar is the text "or click on your state below." To the right of this text is the word "OR" and the text "Select Multiple States" in red. A red arrow points from the "GO" button to a white box containing the text "Select a State from the drop down menu or click on your state within the map". Below the search bar and text is a map of the United States with each state labeled with its two-letter abbreviation. The map is shaded in various shades of blue and grey. The states shown are: WA, OR, CA, NV, UT, AZ, NM, TX, HI, MT, ID, WY, CO, ND, SD, NE, KS, MN, IA, MO, OK, AR, LA, WI, MI, IL, IN, OH, KY, TN, MS, AL, GA, FL, AK, VT, NH, ME, NY, MA, CT, RI, NJ, DE, MD, PA, VA, WV, NC, SC.

Once you have selected a state, then choose which City or County online Code to view. You can choose by clicking on the name of the City or County.

After selecting the City or County, click on “View Mobile Version”.

The options may be a little different for each different Client’s code. But, it’s pretty straight forward from here. You can navigate through the code, run searches using the search box at the top, or click on the “Standard Site” link to navigate to the full version of the online code. The “Standard Site” link would be best used only if you are using a tablet, or device with a larger screen size than a smart phone.
