RFQ #2014-01 ARCHITECTURAL/ ENGINEERING SERVICES FOR TOWN FACILITIES

1. OVERVIEW

The Town of Windermere is seeking qualifications and proposals from qualified architectural and engineering firms or teams of architectural and engineering firms to provide complete design services with respect to the Town's desire to explore the current and future needs as it relates to the Town's Governmental Complex located at 614 Main St. Windermere, FL. This project includes: verifying the current and projected space needs of Town departments housed in the existing Town Office facilities; analyzing development feasibility and preparing order of magnitude cost estimates, developing design alternatives for the Town's consideration to meet the space needs of the Town Departments; taking the design concept on the site selected by the Town and developing schematic plans and specifications sufficient to present a detailed project budget for consideration.

In addition to meeting the Town's space needs, the resulting plan for the Town Offices must meet the requirements of the Americans with Disabilities Act (ADA), the State Building Code, and all other regulatory requirements pertaining to the design, function, and safety of a Town Office facility.

Those firms interested in providing this service are instructed to submit three (3) bound copies, one (1) unbound original, and one (1) electronic copy (CD: PDF Format) of their qualifications pertinent to the scope of work prior to 5pm Eastern Standard Time, June 2, 2014, to the attention of Robert Smith, Town Manager 614 Main St. Windermere, FL 34786. Qualification documents received after this date and time will not be considered. The Town of Windermere reserves the right to reject any and all qualification documents received, to solicit new qualification documents, or take any other such actions that may be deemed to be in the best interest of the Town of Windermere. The Town of Windermere is an Equal Opportunity Employer. MBE/WBE/DBE businesses are encouraged to participate. The Town of Windermere strictly enforces open and fair competition.

RFQ #2014-01 ARCHITECTURAL/ ENGINEERING SERVICES FOR TOWN FACILITIES

5. Scope of Services

PROJECT SCOPE

Background Information

Future Facilities Expansion Planning –The Town currently consists of @ 2,800 residents. There are possibilities of future development and annexations but staffing needs would remain at or near what they are now. A long-term master facilities plan based on the town reaching full build-out should be considered at this time.

The projects to be studied in this plan:

Town Administration–The Town Administration complex is currently operating out of several buildings. Originally built as a schoolhouse complex in 1916, the schoolhouse was converted to Town Offices in 2000. The complex is comprised of Building A (Town Admin, Clerk, Finance), Building B (Old Finance, PW Supervisor, Storage), Building C (Commercial Rental Space: Windermere Counseling, Kaley’s Alterations, and Realty International), Windermere PD (connected to the PD is Elizabeth Parson’s School of Dance), and the Public Works storage yard and facility are at the south of the Windermere PD and share a parking lot (Secured). Town Administration (Building A) currently houses 5 employees (Town Manager, Administrative Assistant, Town Clerk, Town Finance Director, and a Finance Clerk.)

Windermere Police Department- An assessment needs to take place so the town can ensure that it can adequately accommodate police personnel and storage of equipment/vehicles at full build-out. As indicated above, the future annexation and development possibilities are limited and should not have a major impact on the Police Department but some expansion should be anticipated. The Department would seek State Accreditation which Respondent should take into account and consider when making recommendations. Currently, the Windermere PD fully staffed comprises of 12 sworn officers, 5 reserve officers, and 1 civilian employee (Admin Assistant).

Public Works Facility-The current site utilized by the Public Works Department includes one metal workshop/storage building that is used to shelter certain equipment from the elements. There is very little room for storage of materials and equipment. Office space for the public works manager is located within Building B and a break room for public works staff is provided for within the Public Works workshop/storage building. All fleet vehicles are stored behind a security fence that surrounds the metal workshop/storage building.

1887 School Site-On the border of the Town Facilities property lays a dedicated historical site. The property includes three parcels and the master plan is attached within the RFQ packet. The school site cannot be moved and should be incorporated into the overall master plan.

RFQ #2014-01 ARCHITECTURAL/ ENGINEERING SERVICES FOR TOWN FACILITIES

Town Square-The Town Square is between 5th Avenue and 6th Avenue on the west side of Main Street. The block contains the Town Hall (Town Council and Board & Committee Meetings currently take place here), the Cal Palmer Memorial Building (commercially leased), the Franklin W. Chase Memorial Library, a Town Community Room (disrepair) and a small basketball court. Most special events take place within this square (Food Trucks, Farmers Market, etc.) and parking is limited in the surrounding areas. The Town Square is not to be re-planned within the scope indicated below but should be a factor in any recommendations.

5.01.1 Services will include the following to the extent approved by the Town Council and/or Town Manager

- *Programming* – review of the current department personnel and related space requirements. Verify departmental adjacencies and future growth trends in developing a comprehensive needs assessment.
 - Stake Holder Meetings should be anticipated which may include public workshops.
- *Site Analysis* – using the information gathered in the programming phase, propose options for adding the new facilities or refurbishing existing facilities. Prepare site layout plans to illustrate the concepts and functionality of the proposed site design, including evaluation of proposed structures.
 - Site Analysis should include whether the Town should move the Town Facilities to a new location.
 - Site Analysis should include whether the Town should move Public Works to a new location.
 - Site Analysis should explore whether both public and private commercial interests can continue to thrive within the same complex.
- *Cost Estimating* – prepare an accurate cost estimate of probable construction cost for the proposed buildings and site enhancements. This estimate would include the total project price including consulting fees, utilities and infrastructure related to the site as well as the actual building construction costs and any and all other costs associated with the project.
 - Identifying various funding sources for the cost of construction or rehabilitation of the facility.

6. Qualification/Experience requirements:

The Respondent must submit qualification/experience.

6.01 Respondents must demonstrate the following:

- The firm must be established as a legal entity, be licensed in the State of Florida, and the principals of the firm must have performed continuous Architectural or Engineering Services for a minimum of five (5) years.
- Respondent must be a qualified architect/engineer who has experience in projects specifically in the development of general government or commercial office space.
- Capability of the proposer to deliver the proposed services, as demonstrated on recent projects (either completed or underway) of similar project type, size, scope, and complexity for other municipalities within the State of Florida.
- Responses from a minimum of three references
- Describe your general approach and estimated time frame for the project.
- Provide information on any additional benefits of your team

6.02 The Supervision and Personnel

Respondent must demonstrate how the operation will be supervised and what current quality controls policies would be in place for the service. Please identify the individual who, from project start to finish, will be the leader of your design team and the principal point of contact between your firm and the Town, the Architect, and other consultants. This individual's competence, his/her leadership, and his/her/her ability to achieve customer satisfaction will be heavily considered in the selection of a Designer

6.03 Records

Respondent shall be required to maintain records in accordance with local, State, and Federal Public Records Retention Requirements.
