It has come to my attention that a public hearing for the a proposed new commercial building & conditional use for a taproom & micro-brewery at 111 W 5th Avenue will occur in front of the Development Review Board on August 18, 2020 & later by the Windermere Town Council on September 8, 2020.

The matters being discussed for approval by the Town Council are a conditional use permit for Windermere Brewing Company to operate a taproom & micro-brewery in the proposed new commercial building at the above listed address.

I would like to voice my approval for both these items. While I understand that some concessions may need to be made by all parties involved, I also feel that this proposed development and use is compatible with the Town's character & will serve to bring more community enjoyment to our Downtown Business District.

Part of the charm of living in Windermere is its unique downtown district, our town square is where residents come together as a community. I believe we must foster and grow our small businesses to create an even better quality of life for the residents of Windermere.

Once again, I am in full support of both the conditional use proposal & commercial building development.

FYI – I received a phone call today from Ms. Jones who lives at 412 Forest Street. She called to express her extreme objection to the opening of a micro-brewery and tap room in the Town. I advised her to submit her letter of objection and it will be included as part of the record for the DRB and Town Council hearings.

Take care,

Re: Public Hearing on Proposed New Commercial Building and Proposed Taproom & Micro-brewery at 111 W 5th Avenue

It has come to my attention that a public hearing for the a proposed new commercial building & conditional use for a taproom & micro-brewery at 111 W 5th Avenue will occur in front of the Development Revue Board on August 18, 2020 & later by the Windermere Town Council on September 8, 2020.

The matters being discussed for approval by the Town Council are a conditional use permit for Windermere Brewing Company to operate a taproom & micro-brewery in the proposed new commercial building at the above listed address.

I would like to voice my approval for both these items. While I understand that some concessions may need to be made by all parties involved, I also feel that this proposed development and use is compatible with the Town's character & will serve to bring more community enjoyment to our Downtown Business District.

Part of the charm of living in Windermere is its unique downtown district, our town square is where residents come together as a community. I believe we must foster and grow our small businesses to create an even better quality of life for the residents of Windermere.

Once again, I am in full support of both the conditional use proposal & commercial building development.

Regards,

David Tulk

It has come to my attention that a public hearing for the a proposed new commercial building & conditional use for a taproom & micro-brewery at 111 W 5th Avenue will occur in front of the Development Revue Board on August 18, 2020 & later by the Windermere Town Council on September 8, 2020.

The matters being discussed for approval by the Town Council are a conditional use permit for Windermere Brewing Company to operate a taproom & micro-brewery in the proposed new commercial building at the above listed address.

I would like to strongly state my approval for both these items. While I understand that some concessions may need to be made by all parties involved, I also feel that this proposed development and use is compatible with the Town's character & will serve to bring more community enjoyment to our Downtown Business District.

Part of the charm of living in Windermere is its unique downtown district, our town square is where residents come together as a community. I believe we must foster and grow our small businesses to create an even better quality of life for the residents of Windermere.

Once again, I am in full support of both the conditional use proposal & commercial building development.

Subject: Support of Windermere Town Brewery

As a twenty plus year residents of Windermere, we have been pleased with the addition of social and business opportunities allowed to our town members in the "Heart of Downtown". The current restaurant, coffee shop and ice cream parlor are all welcome improvements to give our citizens a place to go without having to leave our town (for most in walking distance) and fight the massive traffic we incur at times.

In this same view, we see the addition of a brewery in the downtown area as a welcome establishment and fully support its participation in our town. It would give town residents a place to go and socialize without having to leave our area. We feel the Windermere community would widely support this business and look forward to seeing our local friends there once opened.

Robert,

FYI – I received a call this afternoon from Mr. Spears at 406 Forest Street. Mr. Spears had a general question regarding the conditional use process, expressed concerns about the proposed parking not sufficient for the use, control of crowds at the proposed operation, commercial fire standards for buildings not meeting sufficient spacing from another commercial building, and possibility of moving the rear patio from the west side to the east side of the building closest to Windermere Market.

Mr. Spears was understanding of my explanation of the conditional use process.

Take care,  
Brad

Why are we allowing a Brewery in our Town? We just don't understand. These people wanting to open the Brewery say it is to attract people in the neighborhood that can walk to the Brewery and have a "pint". It will attract unwanted people to our area. I think we have seen an increase in people coming to Town for the wrong reasons. We want to keep our Town a small family Town. You can see the 1000 to 2000 people that the Food Trucks bring to Town. A nice restaurant similar to a "Dexters" Restaurant like we had in the Grove would be wonderful. We use to go there and enjoy eating outside with our dog. Lunch Time and Dinner Time was a meeting place for people in the area to come and enjoy friendship. I know we have Dixie Cream which is a great welcome to our community. We all enjoy that. If a restaurant could incorporate with them I believe it would be an awesome addition. We just cannot see opening a Brewery. It is not a family atmosphere. We have seen lives ruined by the start of early

drinking in a friendly atmosphere. Everyone is different when drinking alcohol. One thing is clear everyone shows the effect of alcohol. We don't like it. I expressed our views to the ones wanting to open this Brewery. They want to have a conversation to change our mind. There is no changing our mind. We have felt the same through high school, college and raising our 3 children. If you want to drink in your home, fine. Our opinion is SOLID. Thank you for allowing our input. Best, Elle

I would like to add one more thought to my previous email. I am not a "prude" where I think any alcohol should not be served. If we had a nice restaurant as I described in my previous email that serves wine or beer with our meal that is different. It is just the fact that a Brewery is a destination for alcohol only. Thank you again for allowing my opinion. My Best, Elle

Re: Public Hearing on Proposed New Commercial Building and Proposed Taproom & Micro-brewery at 111 W 5th Avenue

It has come to my attention that a public hearing for the a proposed new commercial building & conditional use for a taproom & micro-brewery at 111 W 5th Avenue will occur in front of the Development Revue Board on August 18, 2020 & later by the Windermere Town Council on September 8, 2020.

The matters being discussed for approval by the Town Council are a conditional use permit for Windermere Brewing Company to operate a taproom & micro-brewery in the proposed new commercial building at the above listed address.

I would like to voice my approval for both these items. While I understand that some concessions may need to be made by all parties involved, I also feel that this proposed development and use is compatible with the Town's character & will serve to bring more community enjoyment to our Downtown Business District.

Part of the charm of living in Windermere is its unique downtown district, our town square is where residents come together as a community. I believe we must foster and grow our small businesses to create an even better quality of life for the residents of Windermere.

Once again, I am in full support of both the conditional use proposal & commercial building development.

Major Development (111 W 5th Ave)

Sec. 8-84 of the Windermere Town Code of Ordinances prohibit nightclubs, which are defined as,  
"an establishment exhibiting live entertainment, having a seating capacity of 25 or more persons and serving alcoholic beverages at retail to the public by glass or drink."

The applicant stated that he "has no plans for live entertainment", but must understand that live entertainment is **prohibited** at this type of establishment in Windermere.

Sec. 8-93 of the Windermere Town Code of Ordinances states:

- (a) Except as otherwise provided in subsections (b) and (c) of this section, it shall be unlawful for any person to possess or consume alcoholic beverages on public property within the corporate limits of the town. The term "public property" means all property owned or controlled by the town, including streets and roads. The term "public property" also includes private property which is provided for and open to public use, including but not limited to parking lots for invitees on business premises.

As this location is right across the street from our Town Square, it is a concern that this type of establishment would encourage drinking on public property.

Finally, Sec.8-82 of the Windermere Town Code of Ordinances states:

- (a) Any place of business in which alcoholic beverages or intoxicating beverages are sold or furnished at retail to the public by glass or drink within the town shall open directly and immediately on the street, and **no such place of business shall be less than 1,000 feet from an established church**, school or any other such place of business wherein consumption on premises is permitted which distance shall be measured by following the shortest route of ordinary pedestrian travel along the public thoroughfare from the main entrance of said place of business to the main entrance of the church and in case of a school, to the nearest point of the school grounds in use as part of the school facilities.

This establishment would be within 1000 feet of both the church and the chapel in Windermere, which is **prohibited** in our Town Codes. It is also within 500 feet of many residents, including our home. Our Town Codes were established to provide the amazing atmosphere that we all know and love.

We are highly concerned with having a place of business selling alcoholic beverages for many reasons:

- It is too close to churches, which is prohibited in our Town Codes.
- It is too close to homes. A microbrewery is known to produce odors which would have a negative effect on our quality of life, as we, along with many of our neighbors, enjoy sitting outdoors on our properties.
- Producing odors so close to a residential area would have a negative impact on our property values.
- Noise is a concern, especially with outdoor seating. No businesses in town remain open late such as the hours they are proposing. At the latest, businesses should close at 10PM on Friday and Saturday, and 6PM on Sunday, for the peace of the residents.

For these reasons, we **do not** recommend approval of this request.

The term "public property" also includes private property which is provided for and open to public use, including but not limited to parking lots for invitees on business premises.

As this location is right across the street from our Town Square, it is a concern that this type of establishment would encourage drinking on public property.

Finally, Sec.8-82 of the Windermere Town Code of Ordinances states:

- (a) Any place of business in which alcoholic beverages or intoxicating beverages are sold or furnished at retail to the public by glass or drink within the town shall open directly and immediately on the street, and **no such place of business shall be less than 1,000 feet from an established church**, school or any other such place of business wherein consumption on premises is permitted which distance shall be measured by following the shortest route of ordinary pedestrian travel along the public thoroughfare from the main entrance of said place of business to the main entrance of the church and in case of a school, to the nearest point of the school grounds in use as part of the school facilities.

This establishment would be within 1000 feet of both the church and the chapel in Windermere, which is **prohibited** in our Town Codes. It is also within 500 feet of many residents, including our home. Our Town Codes were established to provide the amazing atmosphere that we all know and love.

We are highly concerned with having a place of business selling alcoholic beverages for many reasons:

- It is too close to churches, which is prohibited in our Town Codes.
- It is too close to homes. A microbrewery is known to produce odors which would have a negative effect on our quality of life, as we, along with many of our neighbors, enjoy sitting outdoors on our properties.
- Producing odors so close to a residential area would have a negative impact on our property values.
- Noise is a concern, especially with outdoor seating. No businesses in town remain open late such as the hours they are proposing. At the latest, businesses should close at 10PM on Friday and Saturday, and 6PM on Sunday, for the peace of the residents.

For these reasons, we **do not** recommend approval of this request.

Landscaping: This proposal seems lacking in landscaping. See the following Town Codes:

Sec. 6-06-02 states:

(9) Solid waste refuse facilities shall be screened by a six-foot high masonry wall if located within the building setback areas. Such walls shall screen the refuse receptacle on three sides with the access side oriented towards the interior of the site. Refuse receptacles which are located in areas visible by the patrons of the site or abutting properties shall be screened in accordance with the criteria in this subsection. Such walls shall be landscaped with shrubs planted adjacent to the wall at a standard of 25 per 100 feet of wall. The wall and hedge shall not be located within the required buffer zone.

If this building is sharing the solid waste refuse facilities at the Windermere Market, the facilities should be screened in accordance to the Town Codes.

(11) A landscaped area shall be provided around the base of all buildings, oriented toward public rights-of-way and equal to 50 percent of the linear length of the building oriented toward the right-of-way, with a minimum width of four feet.

Looking at the site renderings of the buildings, the bases of the buildings are sorely lacking landscaping. It would be a nice addition to the town canopy if some shade trees were added to this property as well.

Re: Public Hearing on Proposed New Commercial Building and Proposed Taproom & Micro-brewery at 111 W 5th Avenue  
It has come to my attention that a public hearing for the a proposed new commercial building & conditional use for a taproom & micro-brewery at 111 W 5th Avenue will occur in front of the Development Review Board on August 18, 2020 & later by the Windermere Town Council on September 8, 2020.

The matters being discussed for approval by the Town Council are a conditional use permit for Windermere Brewing Company to operate a taproom & micro-brewery in the proposed new commercial building at the above listed address.

I would like to voice my approval for both these items. While I understand that some concessions may need to be made by all parties involved, I also feel that this proposed development and use is compatible with the Town's character & will serve to bring more community enjoyment to our Downtown Business District.

Part of the charm of living in Windermere is its unique downtown district, our town square is where residents come together as a community. I believe we must foster and grow our small businesses to create an even better quality of life for the residents of Windermere.

Once again, I am in full support of both the conditional use proposal & commercial building development.

The applicant requests to allow for the north front setback on E 12<sup>th</sup> Avenue to be reduced from 25 feet to 15 feet and for the south side setback be reduced from 15 feet to 10 feet.

The subject property is 100 feet wide. If the subject lot was not a noncontiguous corner lot, then the applicable north and south side setback standard would be 12.5 feet, which is 2.5 feet greater than the 10 foot setback requested by the applicant on the southern property line, and 2.5 feet less than required by the applicant on the northern property line..

The portion of the E 12<sup>th</sup> Avenue ROW adjacent to the subject property is not developed and contains Town maintained stormwater facilities. See following pictures of the subject property and its relationship to E 12<sup>th</sup> Avenue.

Division 10.02.00 of the LDC empowers the Development Review Board to review and make recommendations for approval, approval with conditions or denial to the Town Council on variance requests.

Division 10.02.00 of the LDC requires the Town Council to consider the recommendation of the Development Review Board and to take final action to either approve or deny the variance request.

### **CASE ANALYSIS:**

Section 10.02.02 of the LDC provides the specific standards by which the Development Review Board and Town Council are to review to consider the approval or denial of a variance application. In addition, this Section requires a positive finding, based on substantial competent evidence, for each of the standards. These standards are summarized as follows:

1. The need for the variance arises out of the physical surroundings, shape, topographical condition or other physical or environmental conditions that are unique to the subject property. Variances should be granted for conditions peculiar to the property and not the result of actions of the property owner;
2. There are practical or economic difficulties in carrying out the strict letter of the regulation;
3. The variance request is not based exclusively upon a desire to reduce the cost of developing the site;

4. The proposed variance will not substantially increase congestion on surrounding public streets, the danger of fire or other hazard to the public;
5. The proposed variance will not substantially diminish property values in, nor alter the essential character of, the area surrounding the site;
6. The effect of the proposed variance is in harmony with the general intent of this Land Development Code and the specific intent of the relevant subject areas of this Land Development Code; and
7. The variance will not encourage further requests for changes where such a land use would not be deemed appropriate.

It is also important to note that this Section also provides specific standards that are not to be considered in the review of a variance application. These standards are:

1. That the implementation of these regulations would impose an economic hardship on the cost of the building or redevelopment project;
2. That these regulations impose a hardship by decreasing the maximum density of a property in terms of the number of units, square footage of buildings, etc.; and
3. That other adjacent lands, structures or buildings not in conformance with these regulations provide a rationale for a lessening of their application in this specific case.

Section 10.02.02(c) of the LDC allows the imposition of conditions and restrictions as may be necessary to allow a positive finding to be made on any of the variance standards to minimize the negative effect of the variance. The conditions and restrictions should further the interest of the LDC.

The applicant submitted a site plan and other materials in support of the variance request. The following is a summary of the information provided by the applicant in support of their variance request:

1. “We are in need of this variance due to the unique circumstances of this lot being next to an unbuildable and unusable portion of 12th Avenue.”

**PUBLIC NOTICE:**

Public notices were mailed to property owners within 500 feet of the subject property (34 notices sent). As of October 6 2020, 14 responses were returned, six (6) were in support, six (6) were in opposition, and two (2) were both in support and opposition. The neighbor adjacent to the south property line objected to the variance.

**DEVELOPMENT REVIEW BOARD (DRB) RECOMMENDATION:**

On September 15, 2020, the DRB held a hearing to consider the subject variance. Based on the

testimony provided at the DRB hearing and the information from the staff report, the DRB did not find a hardship to support the full variance request. However, the DRB recommended that the Town Council approval a variance to allow a front setback of 15 feet along E 12<sup>th</sup> Avenue and to maintain the required 15 foot side setback for the southern property line. The DRB vote was 3-1.

RE: 1221 Oakdale St Variance

To whom it may concern,

We are requesting a variance for 1221 Oakdale St. within the Town of Windermere, Florida for the side setback. We are requesting a variance on the northwestern side of the property along the unimproved street 'E. 12th Avenue'. This street, by the towns definition, treats this as a non-contiguous lot therefor the setback from 12th Avenue is 25'. We are requesting a reduced setback from 25' to 15' similar to the setback of a contiguous lot. We are also requesting a variance of the side setback on the interior lot line of 15' to 10'. We are in need of this variance due to the unique circumstances of this lot being next to an unbuildable and unusable portion of 12th Avenue.

**COMMENTS:** There are no unique circumstances, the lot in question is a corner lot, one of many in town, while the section of E. 12<sup>th</sup> Ave on the north side of the lot is not use for driving, the setback should remain 25 feet. The two homes on the south side of E 12<sup>th</sup> between Main and Oakdale are setback 25 feet so if the variance on the north side is granted then the new home would be sticking out an unsightly 10 feet as people drive east on 12<sup>th</sup>. As for the southside variance, I would not like my neighbors to be any closer to me than they already are and with the blueprint showing the air conditioning units being placed between the homes, granting the variance would increase the noise level requiring the existing homeowner to have to keep the windows closed on that side.

**Comments on the variance request for 1221 Oakdale St. Z20-12**

The Applicant is requesting a variance to the North setback from 25 feet to 15 feet and the south setback from 15 feet to 10 feet.

Section 10.02.02. – “Limitations on granting variances” is cited here as my reasons for objecting to the proposed variance.

In paragraph (a) it states:

The board shall not consider, as grounds for approval of a variance, the following:

- (1) That the implementation of these regulations would impose an economic hardship on the cost of the building or redevelopment project.
- (2) That these regulations impose a hardship by decreasing the maximum density of a property in terms of the number of units, square footage of buildings, etc.
- (3) That other adjacent lands, structures or buildings not in conformance with these regulations provide a rationale for a lessening of their application in this specific case.

Paragraph (b) lists several conditions and says the Development Review Board must make a positive finding on **each of them**. Included is:

The board shall not consider, as grounds for approval of a variance, the following:

- (1) There are practical or economic difficulties in carrying out the strict letter of the regulation.
- (2) The variance request is not based exclusively upon a desire to reduce the cost of developing the site.

The above and other of the conditions for granting a variance appear to preclude the granting of the subject variance.

In my opinion, the granting of a variance must have very substantial reasons for it and present substantial conditions unforeseen or not considered by the regulations. **Otherwise, the regulations become difficult to enforce.** If such substantial reasons are presented for granting a variance, then perhaps the regulation needs to be changed. I don't believe that a lot that is too small for the desired house construction meets the conditions for a variance which effectively enlarges the lot by reducing the house setbacks.

## Development Review Board September 15, 2020

### Town Council October 13, 2020

**Case No.:** Z20-13

**Applicant/Representative:** Chuck Tompkins

**Property Owner:** Chuck Tompkins

**Requested Action:** Variance to allow for a generator to be placed in a front yard of a corner lot. The Town requires generators to be in a side or rear yard.

**Property Address:** 12037 Lake Butler Blvd. Windermere, FL 34786

**Legal Description:** BUTLER BAY UNIT 1 11/92 LOT 91

**Future Land Use/Zoning:** Residential/Residential

**Existing Use:** Residential (Single Family)

#### Surrounding Future Land Use/Zoning

**North:** Residential/Residential  
**East:** Residential/Residential  
**South:** Residential/Residential  
**West:** Residential/Residential

#### CASE SUMMARY:

The subject property is a corner lot on the southeast corner of Lake Butler Boulevard and Park

Avenue. Due to the subject property being a corner lot, the subject property has two front yards. One front yard is along Lake Butler Boulevard, and the second front yard is along Park Avenue. The applicant desires to install a generator on the north side of the house within the front yard adjacent to Park Avenue. The Town's Code limits the placement of generators to the side or rear yards (Article VII, Land Development Code). The front yard adjacent to Park Avenue is heavily screened with landscaping and not readily visible from Park Avenue. See the following picture that is from Park Avenue looking at the screening in the front yard of the subject property. The proposed generator would be located behind the existing landscape screening.

Division 10.02.00 of the LDC empowers the Development Review Board to review and make recommendations for approval, approval with conditions or denial to the Town Council on variance requests.

Division 10.02.00 of the LDC requires the Town Council to consider the recommendation of the Development Review Board and to take final action to either approve or deny the variance request.

### **CASE ANALYSIS:**

Section 10.02.02 of the LDC provides the specific standards by which the Development Review Board and Town Council are to review to consider the approval or denial of a variance application. In addition, this Section requires a positive finding, based on substantial competent evidence, for each of the standards. These standards are summarized as follows:

1. The need for the variance arises out of the physical surroundings, shape, topographical condition or other physical or environmental conditions that are unique to the subject property. Variances should be granted for conditions peculiar to the property and not the result of actions of the property owner;
2. There are practical or economic difficulties in carrying out the strict letter of the

regulation;

3. The variance request is not based exclusively upon a desire to reduce the cost of developing the site;
4. The proposed variance will not substantially increase congestion on surrounding public streets, the danger of fire or other hazard to the public;
5. The proposed variance will not substantially diminish property values in, nor alter the essential character of, the area surrounding the site;
6. The effect of the proposed variance is in harmony with the general intent of this Land Development Code and the specific intent of the relevant subject areas of this Land Development Code; and
7. The variance will not encourage further requests for changes where such a land use would not be deemed appropriate.

It is also important to note that this Section also provides specific standards that are not to be considered in the review of a variance application. These standards are:

1. That the implementation of these regulations would impose an economic hardship on the cost of the building or redevelopment project;
2. That these regulations impose a hardship by decreasing the maximum density of a property in terms of the number of units, square footage of buildings, etc.; and
3. That other adjacent lands, structures or buildings not in conformance with these regulations provide a rationale for a lessening of their application in this specific case.

Section 10.02.02(c) of the LDC allows the imposition of conditions and restrictions as may be necessary to allow a positive finding to be made on any of the variance standards to minimize the negative effect of the variance. The conditions and restrictions should further the interest of the LDC.

The applicant submitted a site plan and other materials in support of the variance request. The following is a summary of the information provided by the applicant in support of their variance request:

- (1) There are practical or economic difficulties in carrying out the strict letter of the regulation.
  - a. The underground main electrical supply to the house is on the North side. Whole house emergency generators are normally installed where the house electric main enters the house. To put the generator on the south side would impose a significant increase in electrical wire run and significantly reduce efficiency of the generator.

(2) The variance request is not based exclusively upon a desire to reduce the cost of developing the site.

- a. No. There are several other reasons why the North Side of the property would be the best placement of the generator.
  - i. This North Side of the property already has house equipment. It has an AC outside unit and a pool pump. You cannot see or hear this existing equipment from the sidewalk on the other side of the landscape berm.
  - ii. The House Main Electrical box to the house is on this side of the house. The generator would be 5 feet away from the Main Electric Box where the manufacture recommends its placement.
  - iii. This North Side of the house has a four-foot landscape berm with significant landscape. You cannot see the side of the house from the street (Park Ave). The generator will be approximately 31 feet away from the property line next to sidewalk.
  - iv. If the generator is put on the South side of the house it will be approximately 50 feet away from the neighbor's house. If installed on the North side, it will approximately 200 feet to the house across the street. This is an emergency generator that will be only used during power outages. This placement on the North Side would be the best sound protection for all neighbors. The generator is the new Quiet Generac Series. Much lower noise levels.

(3) The proposed variance will not substantially increase congestion on surrounding public streets, the danger of fire or other hazards to the public.

- a. No effect on congestion, fire or any other hazards to the public.

(4) The proposed variance will not substantially diminish property values in, nor alter the essential character of, the area surrounding the site.

- a. This would increase property value. This side of the house is hidden from any view from the street or front yard. Does not change the character of the property.

(5) The effect of the proposed variance is in harmony with the general intent of this Land Development Code and the specific intent of the relevant subject areas of this Land Development Code. (6) The variance will not encourage further requests for changes where such a land use would not be deemed appropriate

- a. No negative affect on any of these codes. This makes the most common sense in physical placement of the generator that impacts the property and neighbors the least.

### **PUBLIC NOTICE:**

Public notices were mailed to property owners within 500 feet of the subject property (26 notices sent). As of October 6, 2020, four (4) responses were returned, all were in support.

### **DEVELOPMENT REVIEW BOARD (DRB) RECOMMENDATION**

On September 15, 2020, the DRB held a hearing to consider the subject variance. Based on

testimony provided at the hearing and information from the staff report, the DRB found a hardship existed and the variance was consistent with the requirements of the LDC and recommended approval by a vote of 4-0.

To Brad Cornelius (Wade Trim)

I am asking for a variance to put an emergency generator on the North side of my property. This side of the property is facing Park Ave which by Town of Windermere zoning rules is considered a Front Yard. My property has two sides facing streets, so by Town Zoning rules I have two Front Yards. My actual front yard faces West on Lake Butler Blvd. Considering this unique situation I am seeking this variance to show that my North side does not fit the criteria of a Front Yard.

The following is the “required finding” from the Town of Windermere Development Review Board to approve a variance. I have tried to answer all Land Development Codes requirements.

- (1) There are practical or economic difficulties in carrying out the strict letter of the regulation.
  - a. The underground main electrical supply to my house is on the North side. Whole House emergency generators are normally installed where the House Electric Main enters the house. To put the generator on the south side would impose a significant increase in electrical wire run and significantly reduce efficiency of the generator. The generator would be 150 feet away from the House Electric Main.
- (2) The variance request is not based exclusively upon a desire to reduce the cost of developing the site.
  - a. No. There are several other reasons why the North Side of the property would be the best placement of the generator.
    - i. This North Side of my property already has house equipment. It has and AC outside unit and a pool pump. You cannot see or hear this existing equipment from the sidewalk on the other side of the landscape berm. Pictures attached
    - ii. The House Main Electrical box to my house is on this side of the house. The generator would be 5 feet away from the Main Electric Box where the manufacture recommends its placement.
    - iii. This North Side of the house has a four-foot landscape berm with significate landscape. You cannot see the side of my house from the street (Park Ave) - Pictures attached. The generator will be approximately 31 feet away from the property line next to sidewalk.
    - iv. If I put the generator on the South side of the house it will be approximately 50 feet away from my neighbor’s house. If installed on the North side, it will approximately 200 feet to the house across the street. All though this is an emergency generator that will be only used during power outages this placement on the North Side would be the best sound protection for all neighbors. The generator is the new Quiet Generac Series. Much lower noise levels.
- (3) The proposed variance will not substantially increase congestion on surrounding public streets, the danger of fire or other hazards to the public.
  - a. No effect on congestion, fire or any other hazards to the public.
- (4) The proposed variance will not substantially diminish property values in, nor alter the essential character of, the area surrounding the site.
  - a. This would increase property value. This side of the house is hidden from any view from the street or front yard. Does not change the character of the property.

- (5) The effect of the proposed variance is in harmony with the general intent of this Land Development Code and the specific intent of the relevant subject areas of this Land Development Code. (6) The variance will not encourage further requests for changes where such a land use would not be deemed appropriate
- a. No negative affect on any of these codes. This makes the most common sense in physical placement of the generator that impacts the property and neighbors the least.

Northside – Generator will be placed in front and 5 feet away from electrical panel box. Pool pump and AC unit already in location.

Northside 4' landscape berm in front of proposed generator placement.

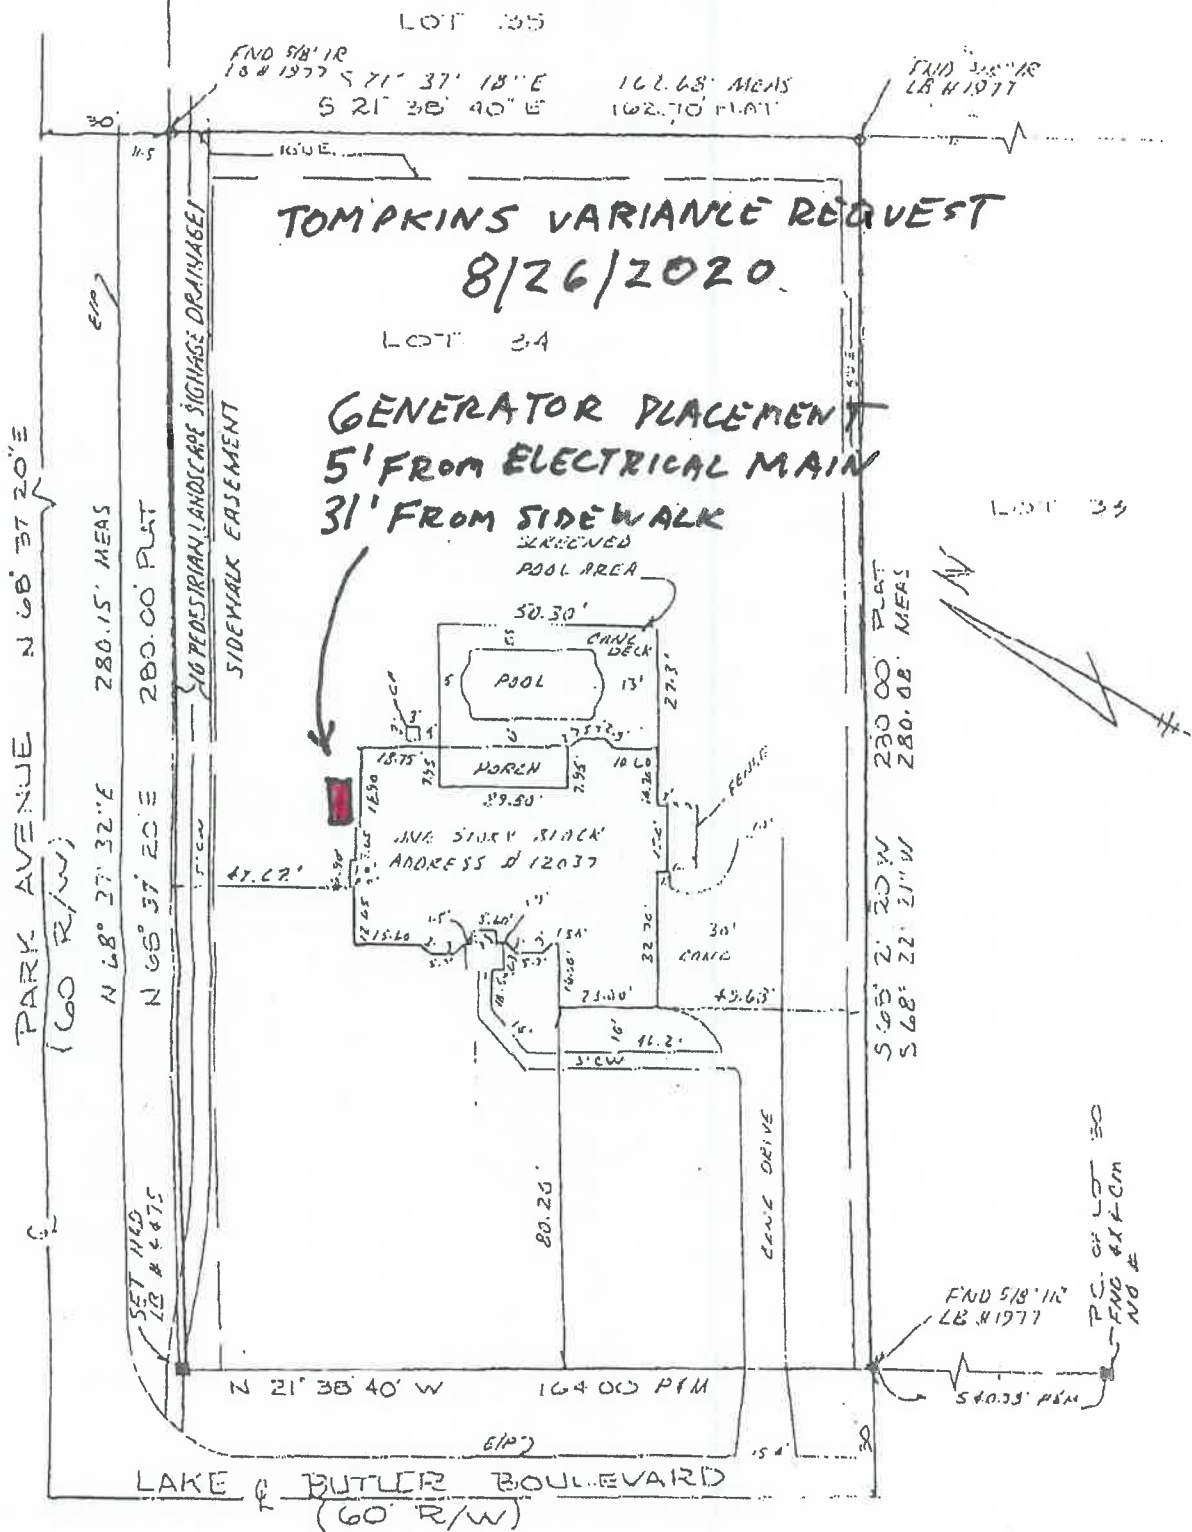

Landscape berm directly in front of proposed generator location. Two layers of landscaping hiding view and mitigating sound.

Front yard (westside) looking at side yard (northside). All views obscured with heavy landscaping.

# The Triple Play

The only solution on the market to combine hands-free decontamination of rooms/facilities and vehicles with the ability to hand-spray equipment.

**RDS 3110**  
Total Asset Decontamination

# RDS 3110

## Total Asset Decontamination

The RDS 3110 uses the proprietary AeroClave Process™ to disinfect rooms, vehicles, and equipment with an EPA-approved, hospital-grade disinfectant at the push of a button.

### Superior Design

The RDS 3110 is a rugged, lightweight and man-portable decontamination system that can effectively treat spaces up to 5,000 cubic feet. Larger spaces can be treated with multiple units. Weighing in at only 48 pounds, the 3110 is simple to use and requires minimal operator training. It is fully self-contained and can be set up and operating in minutes. The small form-factor allows it to be neatly tucked away until needed.

### Breakthrough Process

The RDS 3110 can be operated in either an aerosolized application mode for hands-free room decontamination or hand-applied mode using the optional AeroClave Portable Applicator (APA). The environmentally friendly disinfectant solution produces no harmful by-products for the environment, contains no VOC's and is 100% biodegradable. In addition, it is ready to use (RTU), so no mixing is required.

APA Spray gun applicator with 25' hose.

The APA allows for both manual hand-application to spot treat high contact surfaces and remote-head fogging. This accessory plugs directly into the RDS using our simple ADP connector. The APA comes with a spray gun attached to a 25' cable for maximum coverage.

## ADP

The ADP Ports provide a direct, plug-and-play connection to a nozzle assembly that is permanently mounted in the treatment area. The ports are a cost-effective option to be used in conjunction with your RDS 3110 to decontaminate the interior of the ambulances, fire engines and rooms using AeroClave's hands-free disinfectant system.

### How does it work?

Connect the ADP hose between the port and the RDS 3110. Open all interior cabinets and close the exterior doors. Set the RDS to AMBULANCE or Port MODE and push the start button. The process virtually eliminates the human element of disinfecting, allowing for consistent results. Best of all, it's all done in less than 20 minutes.

Mayor & Council,

**History**

Due to the global pandemic (Covid-19), the Federal, State and Local government has established a special funding source via the Coronavirus Aid, Relief, and Economic Security Act (commonly known as the CARES Act). The funds are available for various resources and support due to either a financial loss due to the economic fallout or to mitigate the spread of the virus. The Town has been approved to receive reimbursements from the CARES Act for expenditures that ensure the safety and welfare of our Staff, as well as our residents.

Staff continues to explore the needs to help mitigate the future safety for all, and in places that are used for public gatherings. For this, the town staff explored various technologies to effectively take temperature scans for public spaces. The units provided in the attached scope are 2 mobile units that can be used in multiple instances. Voting locations, outside events such as farmers market and food trucks as well as future town hall meetings. The THERMAL BODY TEMPERATURE MEASUREMENT CAMERA is a bi-spectral, thermal and visible lens will provide instantaneous temperature reads and warnings of multiple people at one time while at the same time providing security and safety for the public.

**Recommendation**

It is staff's recommendation to approve moving forward on purchasing the Vicom system.

To meet the approval requirements, the system has to be installed and in use before December 31, 2020.

**HISTORY/FACTS/ISSUES:**

Mayor & Council,

As you know, the previous concepts that were presented at the last Town Council Workshop have created a lot of controversy. We were directed by Town Council at a Workshop months ago to come up with a typical dirt road sections that would utilize the minimum standards and impacts as possible. That is not what was presented. This was the fault of staff and not of the engineer since they were directed to proceed in this fashion. Prior to and since that workshop staff has worked with KHA on understanding the minimum guidelines and utilizing those in a way to have as much minimal impact to the streets and areas of the projects. The new typical sections utilize much less than the 60' as present previously. Some of the questions posed to us since that meeting are answered in this summary.

Why are we looking at widening roads? Town Council made the decision and tasked Town Staff to come up with a typical section that would maintain the dirt roadways and utilize the minimum amount of right of way as possible. These minimal standards allow for grant funding and the typical sections allow for consistent maintenance plans. Currently there are four projects staff is asking Town Council for direction on: First/Forest, 7th/Butler, West Second Ave and Bessie St Project. The current plans call for the following (but for W. Second):

3' of grassed shoulder

2 9" dirt road travel lanes (total 18')

6' grassed shoulder for the Town to implement the newly adopted Master Water Plan.

14' grassed swales shoulder to capture the runoff of the roadway and allow for the stormwater to percolate prior

---

to reaching retention areas. (improving water quality) The slope would be 1:4 slope at 1.5 feet = 6 feet- Flat bottom at 3.5 feet and 1:3 slope at 1.5 feet =4.5 feet. Max depth would be 1.5 to 2 feet.

Does the Town need to maintain the minimum Green Book Standards and other established guidelines/standards for these roads? Yes and no. Currently the Town's land development code requires a minimum travel lane to be 9' or total road width of 18'. If the Town would like to proceed with moving forward with anything less than this standard the Town would need to amend its Land Development Code or demonstrate why the deviation is required. The Town can develop a dirt road to whatever width it wants but does so at its own peril should there be a lawsuit or issue that arises from the deviation. In addition, if a deviation from a standard is accepted, a maintenance plan must be amended or adopted for that section as well.

What is minimal width for emergency vehicles? 15'. 3' less than the established minimal standard.

Does the Town currently have plans for other projects right now? Not actively. Currently the Town's Stormwater Assessment only allows for project costs in the amount of \$150,000 or less. Most projects exceed this amount thus the importance of grants.

7th/Butler Project: The road will be widened, increased traffic, speed increased and trees will be removed? Based on the new standard mentioned above the impacts will be minimalized. On 7th, the current road right of way ranges from 14-20'. The new plan reduces the road in some areas and increases it in others. It also meanders with the new design which acts as a traffic calming devise. Only 3 trees will be impacted. Two are dead and one is an invasive camphor. Butler: No trees will be removed and the road will be reduced by 2'.

Bessie Project: Town would look to establish same typical section if adopted by Town Council. The amount of right of way gives the Town wiggle room to protect any environmental sensitive areas.

Who will pay for these projects? If the road funded by grants are designed to the minimal standards then the grant will fund them (@ \$3 million). If not, then the Town is on the hook. This has been confirmed by the grant coordinator. As mentioned before, the Town doesn't have the funds to make these improvements but for grants unless there is a tax or assessment increase to accelerate the projects. If not, they will be delayed for years for the Town to save the money to self-fund. It needs to be mentioned that a lot of the Town residents do not live on dirt roadways but are responsible for the costs of the perpetual maintenance of those roadways and also the future improvements to those roadways. The Town Council made this conscience decision to maintain the charm but it does come at a cost.

What about the Trees? The Town has enough right of way to meander the typical section to protect specimen trees. 7th Avenue is a great example of how we accomplish this. Also, with all projects, the Town will have a 3rd party arborist on hand to assist staff and designers.

This will change the character of the Town? The only point staff can make is that there hasn't been a project yet that has done so. Until a project is approved we will never know. Should we use the minimum emergency standard of 15', there would still be a need for a 3' shoulder, 6' utility corridor and a swale system. The net difference is minimal.

Has the Town been sued or avoided lawsuits due to flooding or stormwater issues? Yes. Since 2010 the Legal Fees have been reduced from \$250,000 to \$90,000. Most of this was due to one stormwater lawsuit on Second Ave which the Town was required to fix as part of the year's long outcome. The Town has also pre-emptively prevented lawsuits since then on at least 4 occasions.

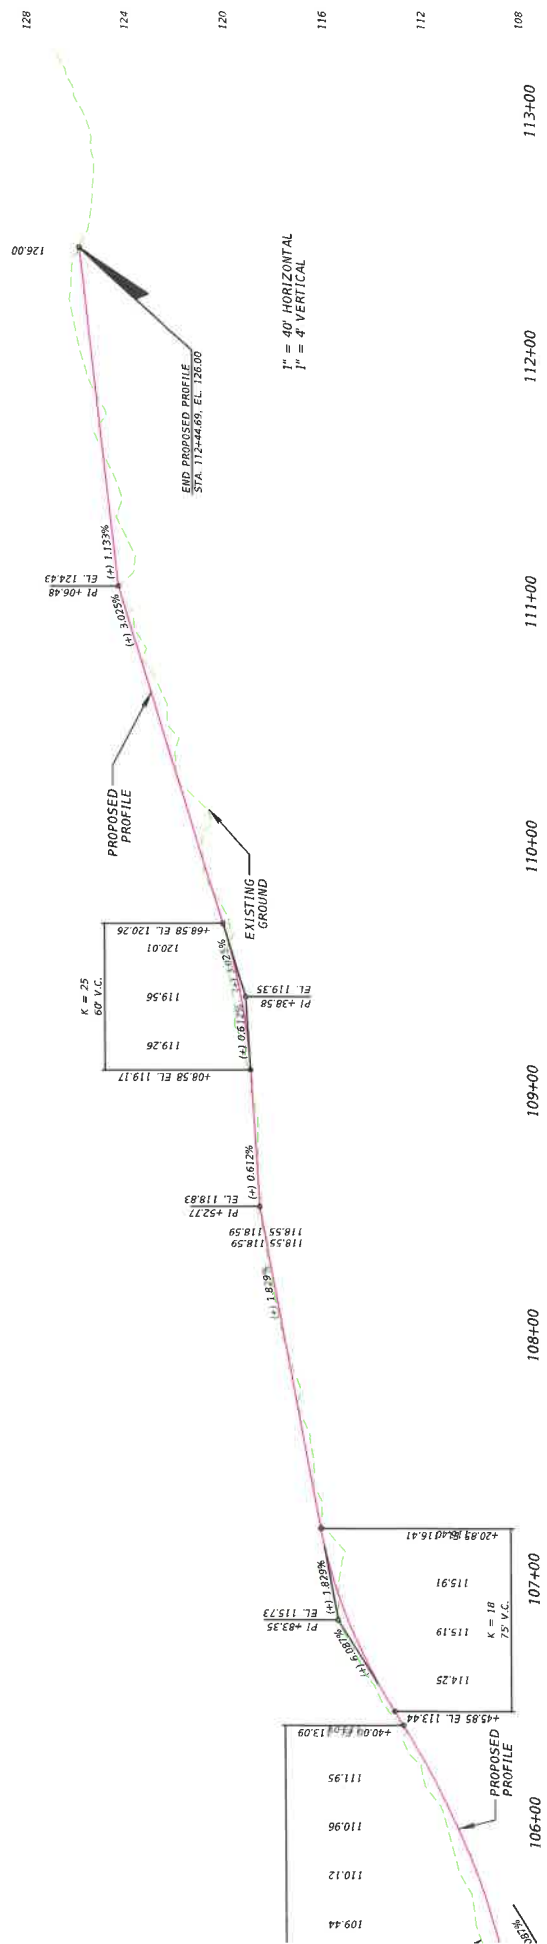

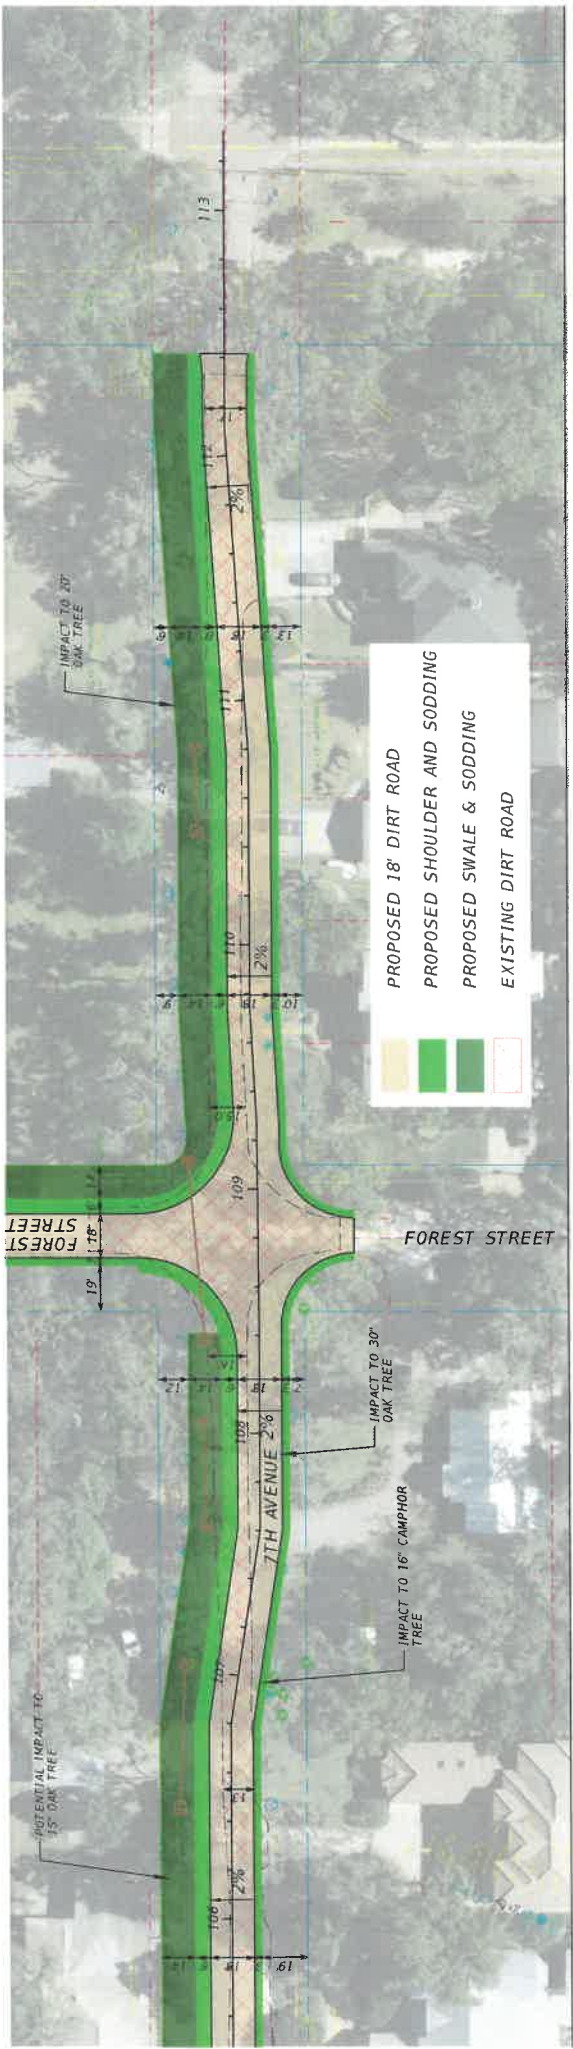

---

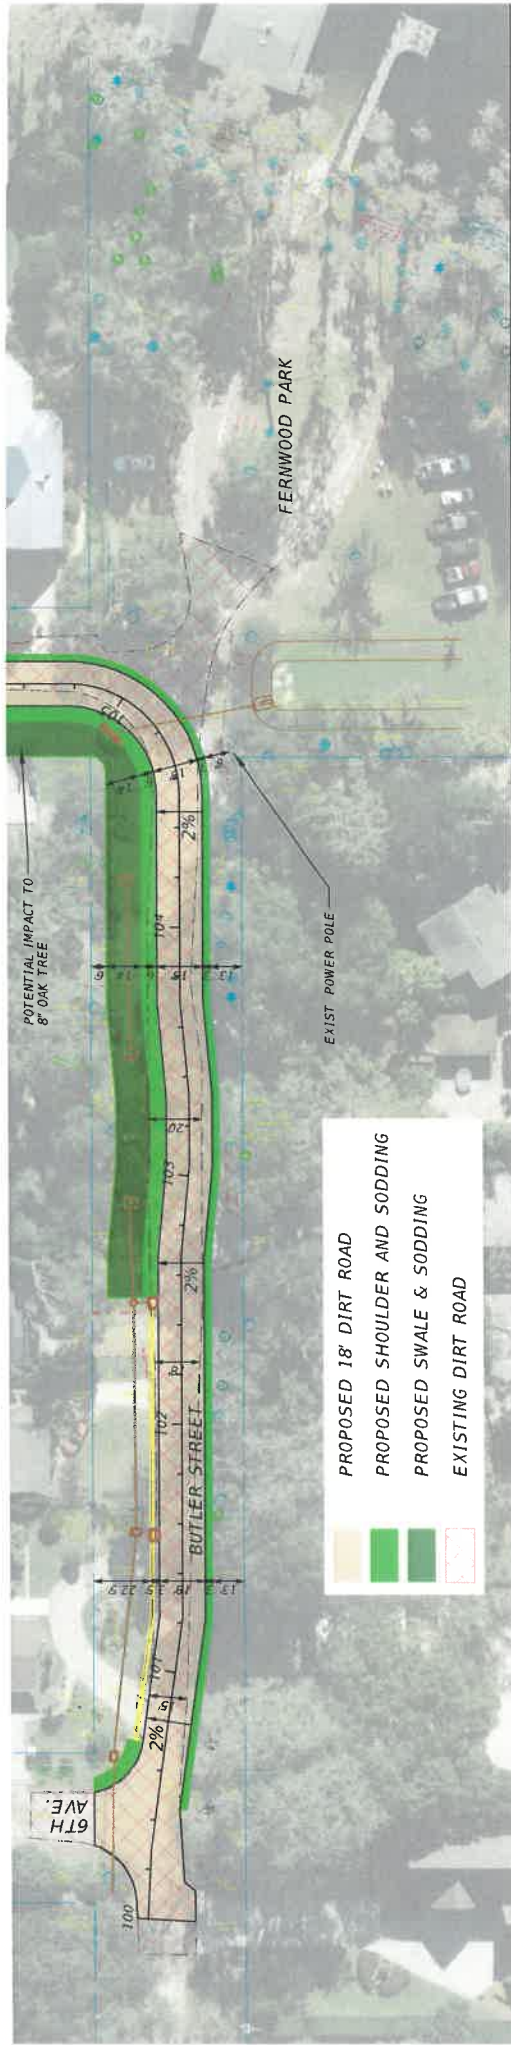

The residents need to always be aware that we work for the Council and follow their/your direction. We have seen and heard negative comments directed personally at staff for these concepts and amendments. Should the Council wish to go one way or the other we will do so.

The design tonight is not for approval of the design but whether or not we utilize minimal standards for these projects only. Should we need to give money back, I would like to do so as fast as possible so other municipalities could use it, staff discontinues to work on this path and move in another direction and we hopefully stay in the good graces of those that have awarded the Town these grants

Staff awaits your direction

Redundant outfall pipe and swales to be presented by KH as part of workshop with TC. Workshop in October with Bessie project. Widths based on what happens with Butler and 7<sup>th</sup>.

4. RR ROW (Sidewalks, Multi Modal Path, RR ROW): Town Council approved the purchase of the Ward/DP Lynn interests in the Railroad ROW.
