

MOBILE APPS, Alerts & E-Newsletters

REV 11/2018

OCFL 311

allows users to report concerns and upload photos to the 311 Service Center.

OCFL Alert

provides critical information during times of emergency and public service announcements via push notification.

OC Alert

allows Orange County to notify you about emergencies or time-sensitive community news via email, text message or phone call.

OCFL Atlas

maps new construction projects throughout the County, and provides access to real-time development data and board meeting details.

Fast Track Online Services

offers the ability to browse and research development records, engineering projects, building permits and other permits such as environmental, floodplain, site work and zoning.

Orange County Water Atlas

offers information relating to Orange County's 600+ lakes and rivers, including water quality, ecology and fishing information.

OCFL News

provides breaking news and information about Orange County.

OC Connect

connects residents to the Mayor's monthly newsletter.

OCFL Serves

allows residents to search and sign up for community service opportunities.

eVIP

is a monthly newsletter which highlights a variety of volunteer opportunities, such as storm drain labeling and invasive plant removal, through the Environmental Protection Division.

Orange County Parks and Recreation's

monthly newsletter provides a list of upcoming events and information about resources available to residents and visitors.

Orange County Recycler

is a quarterly newsletter from Orange County Utilities in English and Spanish that offers tips on reducing, reusing, and recycling at home and in the community.

Neighborhood Newsletter

provides monthly information about resources and events.
