Who am I? Why is this project important?

My name is Jake Carsten. I am a lifelong Windermere resident and live on Forest Street. I joined the Boy Scouts of America in 4th grade and Scouting has been a big part of my life ever since. After much work I attained the rank of Life Scout, meaning there is only one more rank left; the coveted rank of Eagle Scout. The next step in my advancement journey to Eagle Scout is the completion of an Eagle Scout Project. These projects are mandatory for all scouts hoping to become an Eagle Scout and they must be a project that benefits your community and the people who reside in it. One thing immediately came to my head when I began to consider possible project; an American flag receptacle. I realized Troop 225 has been collecting a scant amount of worn and retired flags recently, averaging about 1 flag every week. I believe a majority of citizens in our community don't know what to do with their flags that need to be retired so they either fold them up and store them indefinitely in their house or throw them in the garbage. The flag of our country deserves far more than either of those fates. It deserves to be respectfully retired by the Scouts of Troop 225. My project will provide a place for the entire Windermere community to have a convenient collection spot to have their flags retired respectfully, and secure a process to continue the collection into the future.

What will this project entail?

My American flag receptacle will be an retired United States Postal Service mailbox that I purchased on Ebay. It would be surrounded by a small area of granite gravel and several edging stones to separate the receptacle area from the grass. The area filled in with gravel will be 6 feet long by 6 feet wide and the center the box will rest bolted on a concrete pad which will anchor it the ground. The box can be painted with several patriotic designs that are minimalist in nature but identify the purpose of the box. The intention of this project is not to add a new landmark to the Windermere community but rather, to blend a new useful feature of the town into the historic facade of Windermere. My goal is to have Windermere residents question if the receptacle was always there, and they just hadn't noticed it.

THE TOWN OF Windermere

What will this project look like?

The project will look similar to the project to the top right, except for the fact that it will be in a small square of gravel as to separate it from the grass. The box, as it is currently, is pictured on the left. It will be extremely easy to pull up and drop off any flags that need to be retired. The process should take no more than 30 seconds.

Possible locations?

Many locations stand out as a great place for the receptacle. But, in my opinion, the best would be in front of Town Hall or to the right or left of the Palmer House. These locations would make flag drop off easily accessible and not create any traffic delays. I would love to hear from the citizens or the council if they have an idea for another location.

What would this cost the town?

I am happy to report that this project will be completely free of cost to the town. All funding will be provided by me through a combination of fund-raising and funding generously provided by the Doctor Phillips Eagle Scout organization, which will match what I raise, dollar for dollar. In terms of resources, I will need no equipment or labor from the town. The project will be open to all who wish to volunteer and any hours worked can be signed off as community service hours; which are important for student organizations like the National Honor Society and for scholarships like Bright Futures.

Member Stroup stated option number four "do nothing and return cost spent to date to HWO." He remarked that it isn't what residents want. This Agreement will automatically be renewed for participation in successive three-year qualification periods. This Agreement remains in effect, and neither the COUNTY nor the MUNICIPALITY can terminate or withdraw from it until funds and program income received with respect to activities carried out during the three-year qualification period, and any successive qualification periods, are expended and the funded activities are completed; unless the MUNICIPALITY or COUNTY provides written notice that it elects not to participate in the new qualification period. A copy of the written notice will be sent to the HUD Jacksonville Field Office by the date specified in the Urban County Qualification Schedule.

(b) The COUNTY agrees that it will notify the MUNICIPALITY, in writing, of its right not to participate – pursuant to Section 7(a) above – by the date specified in HUD's Urban County Qualification Notice for the next qualification period.

(c) Failure by either party to adopt an amendment to the Agreement incorporating all changes necessary to meet the requirements for cooperation agreements set forth in the Urban County Qualification Notice applicable for a subsequent three-year urban qualification period, and to submit such amendment to HUD as provided in the Urban County Qualification Notice, will void the automatic renewal of such qualification period.

SECTION 8. PERFORMANCE OF SERVICES/CONTRACTS

(a) As to the use of the CDBG, HOME, and ESG funds received by the COUNTY, the COUNTY may either carry out the CDBG, HOME, and ESG Programs for the MUNICIPALITY or, in the event that the parties jointly determine that it is feasible for the MUNICIPALITY to perform any services in connection with the CDBG, HOME, and ESG Programs, the COUNTY may contract with the MUNICIPALITY for the performance of such services.

(b) Any contracts entered into pursuant to Section 8(a) above shall contain provisions which obligate the MUNICIPALITY to undertake all necessary actions to carry out the CDBG, HOME, and ESG Program and Consolidated Plan, where applicable; within a specified timeframe and in accordance with the requirements of Title I of the Housing and Community Development Act of 1974, as amended, and any and all other applicable laws and implementing regulations.

(c) The MUNICIPALITY agrees to undertake and accomplish all necessary actions, as determined by the County, in order to carry out the Community Development Block Grant Program, the HOME Program, the Emergency Solutions Grant, and the Consolidated Plan.

SECTION 9. APPLICABLE LAWS/COMPLIANCE

(a) The MUNICIPALITY and the COUNTY agree to take all actions necessary to assure compliance with the urban county's certification under section 104(b) of Title I of the Housing and Community Development Act of 1974, that the grant will be conducted and administered in conformity with Title VI of the Civil Rights Act of 1964 and the Fair Housing Act and will affirmatively further fair housing. The MUNICIPALITY and the COUNTY also agree to comply with section 109 of Title I of the Housing and Community Development Act of 1974, which incorporates Section 504 of the Rehabilitation Act of 1973 of Title II of the Americans with Disabilities Act, the Age Discrimination Act of 1975, and Section 3 of the Housing and Urban Development Act of 1968, and all other applicable laws.

(b) The MUNICIPALITY acknowledges and understands that noncompliance by the MUNICIPALITY with all applicable provisions of laws, rules, or regulations may constitute noncompliance by the entire urban county program, and the COUNTY, as the grantee, and the MUNICIPALITY, assume responsibility therefor.

SECTION 10. FAIR HOUSING

The MUNICIPALITY acknowledges that the COUNTY will prohibit urban county funding for activities in, or in support of, the MUNICIPALITY if the MUNICIPALITY does not affirmatively further fair housing within the MUNICIPALITY'S jurisdiction and/or if the MUNICIPALITY impedes the COUNTY'S actions to comply with its fair housing certification.

SECTION 11. LAW ENFORCEMENT

The MUNICIPALITY has adopted and is enforcing a policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in non-violent civil rights demonstrations. Furthermore, the MUNICIPALITY has adopted and is enforcing a policy of enforcing applicable state and local laws against physically barring entrance to or exit from a facility or location which is the subject of such non-violent civil rights demonstrations within its jurisdiction. In furtherance of this provision, specifically, and all other provisions of this Agreement, generally, the MUNICIPALITY agrees to indemnify and hold the COUNTY harmless to the fullest extent provided by law.

SECTION 12. STATUS OF MUNICIPALITY

Pursuant to 24 CFR 570.501(b), as well as all other applicable law, the MUNICIPALITY agrees that it is, at a minimum, subject to the same requirements applicable to grantee subrecipients, including the requirement of a written agreement as described in 24 CFR 570.503.

SECTION 13. PROGRAM INCOME

The MUNICIPALITY and the COUNTY agree to the following provisions:

(a) The MUNICIPALITY shall inform the COUNTY of any income generated by expenditure of CDBG, HOME, or ESG funds.

(b) The MUNICIPALITY may retain program income subject to requirements set forth in the Agreement.

(c) Any program income retained by the MUNICIPALITY shall be used for eligible activities in accordance with applicable CDBG, HOME or ESG requirements.

(d) The COUNTY shall have the responsibility to monitor and report to HUD on the use of any such program income thereby requiring appropriate record keeping and reporting by the MUNICIPALITY as may be needed for this purpose.

(e) In the event of the COUNTY'S failure to qualify as an urban county, or a change in status of the MUNICIPALITY, any program income shall be paid to the COUNTY.

SECTION 14. REAL PROPERTY

The MUNICIPALITY and the COUNTY agree with the following standards regarding real property acquired or improved in whole or in part using the CDBG, HOME, or ESG funds:

(a) The MUNICIPALITY shall notify the COUNTY, in a timely manner, of any modification or change in the use of real property from that intended at the time of acquisition or improvement including disposition thereof.

(b) The MUNICIPALITY shall reimburse the COUNTY in an amount equal to the current fair market value (less any portion thereof attributable to expenditure of non-Community Development Block Grant funds) of property acquired or improved with Community Development funds that is disposed of or transferred for use incongruent with CDBG, HOME, or ESG regulations.

(c) In the event of the COUNTY'S failure to qualify as an urban county, or a change in status of the MUNICIPALITY, any program income generated from the disposition or transfer of property shall be paid to the COUNTY.

SECTION 15. EFFECTIVE DATE

This Agreement shall take effect upon the execution of the Agreement by the parties.

SECTION 16. COUNTERPARTS

This Agreement may be executed in counterparts each of which shall be deemed an original.

THIS INTERLOCAL AGREEMENT (this "Agreement"), is entered into and effective as of October 1, 2023, by and between the **CITY OF OCOEE, FLORIDA,** a municipal corporation created by and existing under the laws of the State of Florida, whose mailing address is c/o Ocoee Fire Department, 563 South Bluford Avenue, Ocoee, Florida 34761 ("Ocoee"), and the **TOWN OF WINDERMERE, FLORIDA,** a municipal corporation created by and existing under the laws of the State of Florida, whose mailing address is 614 Main Street, Windermere, Florida 34786 ("Windermere").

WITNESSETH:

WHEREAS, Section 163.01, Florida Statutes, known as the "Florida Interlocal Cooperation Act of 1969" authorizes local governments to make the most efficient use of their powers by allowing them to cooperate with other localities on a basis of mutual advantage and thereby provide services and facilities that will harmonize geographic, economic, population, and other factors influencing the needs and development of local communities; and

WHEREAS, Ocoee presently has the manpower, equipment, and ability to process, review, and provide inspection relating to fire permits and plans on behalf of Windermere, and to provide fire investigation, hazard mitigation, fire code enforcement and other fire and emergency related services to Windermere; and

WHEREAS, Ocoee desires to process, review, and provide inspection relating to fire permits and plans in exchange for the direct payment of fees by applicant and Windermere authorizes Ocoee to provide such services for its applicant and citizens; and

WHEREAS, Ocoee desires to provide certain fire and emergency related services to Windermere in exchange for the payment of annual fees by Windermere and Windermere desires to purchase such services from Ocoee; and

WHEREAS, the City Commission of Ocoee has authorized Ocoee to enter into this Agreement, and the Town Council of Windermere has authorized Windermere to enter into this Agreement.

NOW, THEREFORE, in consideration of the premises and the mutual promises, terms and conditions contained herein and of other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Windermere and Ocoee hereby agree as follows:

1. FIRE INSPECTION AND PERMIT REVIEW SERVICES:

A. Provision of Services. Ocoee hereby agrees to process, review, and provide inspection relating to fire permits (with such services being collectively referred to as "Fire Permit Review Services"), to the citizens and properties located within the corporate limits of Windermere along with its provision of such services to the citizens and properties located within the corporate limits of Ocoee. As a result of this Agreement, Windermere will not provide fire permit review services directly to its citizens or properties located within its corporate limits. When applying for a fire permit, this Agreement authorizes Ocoee to collect all necessary application information and fees directly from applicants residing in or doing business in Windermere, including its citizens, at the time of application for a permit. This Agreement authorizes Ocoee to enforce the provisions of said permits. This Agreement is a contract for the provision of services and shall not, in any manner whatsoever, constitute a transfer of municipal home rule powers. This Agreement is solely an interlocal agreement to provide services authorized by Chapter 163, Florida Statutes.

B. Payment of Fees. At the time of an application for Fire Permit Review Services, applicants shall remit directly to Ocoee per Resolution 2018-021, which is attached hereto as **Exhibit "A"**, with the updated fee schedule listed on **Exhibit "B"** , attached. These fees may be changed with 30 days written notice from Ocoee to Windermere.

C. Scope of Services. The parties hereto agree as follows:

(1) Ocoee Fire Department shall be the primary department authorized to engage in Fire Permit Review Services per this Agreement. Fees for all services are described in **Exhibit "B"**, attached hereto.

(2) Separate permits will be required for fire protection systems.

(3) In addition to any fees paid by applicant to Ocoee at the time of application for a building permit, at the time of such application, the applicant shall also pay a nonrefundable plan review fee for review by the Ocoee Fire

Department, as described in **Exhibit "B"**, attached hereto.

In the event that the Ocoee Fire Department, upon initial inspection, shall find work not in compliance with the Florida Fire Prevention Code, the person doing said work shall promptly do everything necessary to bring said work within the requirements of the Florida Fire Prevention Code. The Ocoee Fire Department shall then, upon notice from such person, reinspect said work after payment of the fees outlined in **Exhibit "B"**, attached hereto.

D. Florida Fire Prevention Code. Inspections and Fire Permit Review Services set forth in this Agreement shall be conducted in accordance with Chapter 633, Florida Statutes, and the provisions of the current edition of the Fire Protection Code, adopted pursuant to state law.

E. Inspection. Inspections required in the context of Fire Permit Review Services, as set forth in this section, are in addition to and shall not be construed to conflict with the annual fire inspections on commercial properties referenced in Section 2 of this Agreement. Inspections shall be conducted by and through Ocoee Fire Department and Fire Department officers and employees.

F. Duties and Level of Service. Ocoee shall provide substantially the same Fire Permit Review Services for residents of Windermere that are available and provided to the residents of Ocoee. The rendition of service, standards of performance, and other matters incident to performance of services and control of personnel will be controlled exclusively by Ocoee. Additionally, during the performance of Fire Permit Review Services for citizens and applicants of Windermere, all officers and employees of Ocoee shall perform only those functions that are within the scope of the duties and responsibilities of such officer or employee in the performance of such Fire Permit Review Services for Ocoee. This Agreement shall not be construed to impose any obligation, duty or responsibility whatsoever on Ocoee to provide any specific types, kinds, or numbers of personnel or equipment within the corporate limits of Windermere at any specific time.

2. FIRE SERVICES:

A. Provision of Services. Ocoee hereby agrees to provide Fire Protection Services, Fire Suppression Services, Emergency Medical Services & Transportation, Emergency Rescue Services, Fire Investigation Services and Public Service Incident Responses (with such services being defined herein and collectively referred to as the "Fire Services"), to the citizens and properties located within the corporate limits of

Windermere along with its provision of such services to the citizens and properties located within the corporate limits of Ocoee. As a result of this Agreement, Windermere does not intend to provide Fire Services directly to its citizens and properties located within its corporate limits. Windermere hereby agrees to pay certain fees, as hereinafter defined, to Ocoee for the provision of such Fire Services by Ocoee during the term of this Agreement. This Agreement is a contract for the provision of services and shall not, in any manner whatsoever, constitute a transfer of municipal home rule powers. This Agreement is solely an interlocal agreement to provide services authorized by Chapter 163, Florida Statutes.

Ocoee shall have the right to use the tanker truck in its normal day-to-day activities in providing the Fire Services in Windermere and in Ocoee. During the term of this Agreement, Ocoee agrees to be responsible for the routine maintenance and repair of the tanker truck and shall continue to house the tanker truck at the fire station on Maguire Road or such other location as determined by Ocoee.

D. Administrative Agent. Ocoee hereby agrees to administer this Agreement by and through its Fire Department and Fire Department officers and employees.

The rendition of service, standards of performance, discipline of officers and employees, and other matters incident to performance of services and control of personnel will be controlled exclusively by Ocoee. Additionally, during the performance of Fire Services for Windermere, all officers and employees of Ocoee shall perform only those functions that are within the scope of the duties and responsibilities of such officer or employee in the performance of such Fire Services for Ocoee. This Agreement shall not be construed to impose any obligation, duty or responsibility whatsoever on Ocoee to provide any specific types, kinds, or numbers of fire or emergency personnel, equipment or apparatus at any fire station or other facility in Ocoee or at any emergency scene within the corporate limits of Windermere at any specific time.

F. Payment of Fees. Windermere hereby agrees to pay to Ocoee an annual fee (collectively, the "Fees") for the provision of Fire Services pursuant to the terms and conditions of this Agreement. The annual Fees in the amount of $800,000.00 for the first year of this Agreement shall be remitted in two (2) equal biannual payments and shall be due and payable to Ocoee on February 1 and May 1 for each year of this Agreement, with the first payment of $400,000 being due and payable on February 1, 2024 and the second payment of $400,000 being due and payable on May 1, 2024. The Fees shall increase for both the second year and for the third year by the greater of (i) 5%, or (ii) the percentage increase for the twelve-month period of such previous calendar year of the "CPI-W". For purposes hereof, the "CPI-W" means the Consumer Price Index for Urban Wage Earners and Clerical Workers, as published by the United States Department of Labor, Bureau of Labor Statistics, or, in the event that publication of such index is terminated, any successor or substitute index, appropriately adjusted, acceptable to both parties."

In the event this Agreement is extended beyond the Initial Term, the Fees for each year shall increase by three percent (3%) over the Fees for the prior year, unless the parties agree to different Fees amount as part of the extension of the term. In the event payment is not made on a timely basis, a late charge at the rate of twelve percent (12%) per annum shall be added to Windermere's Fees due and owing to Ocoee. Interest shall be compounded and

computed daily, based on a 365-day year, commencing the first calendar day after the due date. If payment is more than thirty (30) days delinquent, Ocoee may terminate this Agreement as provided herein.

G. **Ancillary Fees/Charges**. The parties acknowledge and agree that Ocoee may invoice, collect, and retain fees from Windermere residents for EMS transportation, as well as collect from residents and businesses based on false alarm fees in accordance with the fee schedules adopted by Ocoee. Ocoee may also invoice, collect, and retain fees from residents or businesses within Windermere whose negligent or unlawful acts cause an incident resulting in an emergency response.

3. Employee Status. Persons employed by Ocoee in the performance of this Agreement shall remain employees of Ocoee for all purposes and shall not have any claims against Windermere for pension rights, workers' compensation, unemployment compensation, civil service rights, or other employees' rights or privileges granted by Federal, state or local law or by Windermere to its officers and employees. Further, Ocoee agrees that Windermere shall assume no liability for the payment of salary, wages, or other compensation or entitlement to officers, agents, or employees of Ocoee who perform Fire Permit Review Services or Fire Services to Windermere as provided in this Agreement.

4. Agency Relationship. For the purposes of this Agreement, Ocoee shall be an agent of Windermere entitled to exercise all municipal and corporate powers of Windermere in the same manner as if the Fire Permit Review Services or Fire Services and other related services set forth herein were being performed by employees of Windermere.

5. Equal Employment. Ocoee hereby acknowledges that it adheres to the policies and regulations of the Equal Employment Opportunity Commission as set forth in Chapter XIV of the Code of Federal Regulations which provide for the equality of opportunity, both before and during employment with any local department or agency, for all applicants and employees, regardless of race, color, sex, religion, national origin, marital status, or other similar factors that are not job related. Such policy applies to all levels of employment for Ocoee and to all job classifications. In addition, it is the responsibility of each division within Ocoee and each department head or supervisor to give the non-discrimination policy full support by leadership and by personal example. Further, it is the duty of each employee to help maintain the work environment which

is conducive to and which effectuates Ocoee's commitment and philosophy to equal employment opportunity.

6. **Cooperation.** To facilitate performance of this Agreement, Ocoee hereby agrees to fully cooperate with Windermere with regard to the provision of Fire Permit Review Services and Fire Services, and Windermere hereby agrees to fully cooperate with Ocoee regarding the same.

7. **Term of Agreement.** This Agreement shall be effective for a period of three (3) years commencing on October 1, 2023 and expiring on September 30, 2026 (the "Initial Term"), unless otherwise terminated as provided below. Upon the expiration of the Initial Term or upon the expiration of each subsequent one-year period thereafter, the term of this Agreement may be extended for an additional period of one (1)year upon the receipt by Ocoee of Windermere's written notice of intention to extend this Agreement. Such notice must be delivered to Ocoee on or before January 1, 2026 with respect to the Initial Term and on or before January 1st of each year thereafter with respect to any renewal terms in order to allow each City to adjust its respective budget by March 1st for the next fiscal year. Upon receipt of such notice of Windermere's intention to extend the then term of this Agreement, Ocoee may, at its sole option, elect to terminate this Agreement at the end of the current term or to extend this Agreement for an additional one-year term, all by written notice to Windermere delivered within forty-five (45) days of receipt of notice from Windermere of its intention to extend this Agreement. 9. **Annexation.**

A. Windermere shall keep Ocoee advised regarding annexations and the corporate limits of

Windermere in order that Ocoee may provide Fire Permit Review Services and Fire Services to properties added to Windermere subsequent to the date hereof. Ocoee shall not be obligated to provide Fire Permit Review Services and Fire Services to properties annexed into the corporate limits of Windermere unless and until Ocoee receives from Windermere written notice of such annexations along with a street address for such properties.

B. The parties agree that the Fire Services fees, as provided in Section 2F of this Agreement, are based on Ocoee providing Fire Services in the corporate limits of Windermere as of the effective date of this Agreement. In the event the corporate limits of Windermere are expanded significantly due to the annexation of multiple properties and/or subdivisions, the Fire Services fees provided in Section 2F shall be renegotiated and adjusted accordingly. Provision of services and the adjustment of Fire Services fees shall only become effective upon the execution of an amendment to this Agreement by both parties.

10. Termination.

(A) This Agreement shall expire at the end of the term unless one party shall notify the other party by one-year written notice of its intention to terminate this Agreement, in which event the term of this Agreement shall expire on the first September 30th following the end of the one-year notice period.

(B) Further, the term may be terminated by either party in the event that the other party shall violate or fail to perform any material obligation of such party under this Agreement, and such violation or failure shall continue for a period of sixty (60) days after notification of such breach by the other party. Such termination shall be effective not less than ninety (90) nor more than one hundred twenty (120) days after delivery of written notice of termination to the breaching party; provided, however, with regard to Fire Services, if Ocoee terminates this Agreement pursuant to this subsection, Windermere shall be obligated to pay to Ocoee on a pro-rata basis for the services rendered in any partial year and Ocoee agrees to continue providing the Fire Services until either Windermere has obtained replacement Fire Services or has had an adequate period of time to obtain such replacement Fire Services.

11. Notices. All notices required to be given under this Agreement shall be in writing, and deemed

sufficient to each party when sent by Certified United States Mail, return receipt, to the City Manager of the other party.

12. **Amendment.** Except for changes in Fire Permit Review Services fees, as described in section 1.B. and 9.A. of this Agreement, this Agreement shall be modified, amended or altered only by an instrument in writing signed by both parties, and such execution by Windermere shall be valid and binding against Windermere only if expressly approved by its Town Council at a legally valid meeting thereof and such execution by Ocoee shall be valid and binding against Ocoee only if expressly approved by its City Commission at a legally valid meeting thereof, and provided the execution of such amendment conforms to all the federal, state and local laws, rules, procedures and ordinances applicable to the execution of this Agreement.

13. **Entire Agreement.** The Agreement contains the entire agreement between Ocoee and Windermere with respect to the subject matters hereof and supersedes any prior agreements or understandings, written or oral, between the parties. The preparation of this Agreement has been a joint effort of the parties, and the resulting document shall not, solely as a matter of judicial constraint, be construed more severely against one of the parties than the other. Neither party shall assign, delegate, or otherwise transfer its rights and obligations as set forth in this Agreement to any other entity without the prior written consent of the other.

The preliminary development plan was approved by Town Council on Jun 8, 2021, with the adoption of Ordinance 2021-01. Ordinance 2021-01 rezoned the subject property to PUD, approved the preliminary development plan, and provided conditions for the development and

approval of the final development plan. The proposed Development Agreement includes many of the conditions that were included in Ordinance 2021-01.

With the first two steps complete of the PUD process, this request is for the adoption of Ordinance 2023-02 for the Development Agreement between Windermere Downtown Property, LLC, V3 Capital Group, LLC, and the Town for the approval the final development plan for this proposed project. This final development plan also is the site plan for major development approval.

In summary, the proposed Development Agreement and final development plan/major development site plan proposes redevelopment of the subject property as follows:

1. 19,750 gross square feet of retail, restaurant, office within two - one-story buildings with a courtyard between the two buildings. The proposed new buildings are less than the maximum allowed height of 35 feet and are located consistent with the requirements of the Town Center Design Guidelines. The proposed buildings are located along Main Street with the back half of the property along Oakdale Street containing the parking and landscape buffer.

   At this time, the only announced use for the proposed project is a boutique Ace Hardware store proposed for the building on the north end. A hardware store is a permitted use in the Town Center Overlay District. However, it is only permitted without any outdoor storage or displays. Policy 1.4.21 of the Future Land Use Element of the Town's Comprehensive Plan specifically states "hardware stores (no outdoor storage)" are the only type of hardware store allowed in the Town Center Design District. Because this limitation is within the Town's Comprehensive Plan, this prohibition on outdoor storage for hardware stores cannot be waived or deviated from within the approval of the final development plan and major development. To allow the outdoor storage for the hardware store requires an amendment to the Town's Comprehensive Plan to remove that prohibition. In addition, Ordinance 2021-01, which approved the PUD zoning for the subject property, and Section 8.01.00(11) of the Town's Land Development Code also prohibit outdoor storage or display of materials or merchandise unless displayed during Town sanctioned events subject to locational criteria.

   The list of permitted uses for the project are consistent with those permitted in the Town's Comprehensive Plan and Land Development Code for the subject property.

   Also, the Development Agreement limits the hours of operation of the businesses between the hours of 7:00 a.m. and 10:00 p.m. each day, unless otherwise approved by Town Council.

   Any businesses that will be selling or serving alcohol are subject to the Town's requirements in Article VI, Town Code of Ordinances, which includes the requirement for the approval of a conditional use for onsite consumption.

2. There are 79 on-site parking spaces provided consistent with the required parking standard of the Town Center Design Guidelines of 4 parking spaces per 1,000 sf of gross building

area. The parking within the Town Center Overlay District has its own parking standards. Section 3.04.03(2)f.3, LDC, states: "Parking ratios for all land uses within the Town Center District are hereby established at four spaces/1,000 gross square feet." Consequently, the parking standards of individual uses as applied to properties developed prior to the implementation of the Town Center Design Guidelines or not located within the boundary of the Town Center Overlay District are not applicable to this proposed project. The Development Agreement requires the applicant to provide proper signage to manage the shared parking of the loading zone.

3. There is a 20-foot landscape buffer at the perimeter of the property along Oakdale Street and E 6th Avenue as required by the Town Center Design Guidelines. There is also a 6-foot screen wall along the Oakdale Street frontage with the landscaping on the exterior of the screen wall, The screen wall maintains the 6-foot height along the portion of the E 6th Avenue frontage that is across from the homes on Oakdale Street on the south of E 6th Avenue. However, as the screen wall approaches the right-in/right-out driveway connection for the project to the E 6th Avenue, the screen wall is reduced in height to 3-feet to provide for visual clearance at the driveway intersection. On April 19, 2023, the applicant met on site with Oakdale Street residents that live across the street from the project to discuss the proposed screen wall and landscape. On July 3, 2023, the applicant emailed the Oakdale Street residents requesting a meeting with them to review alternative screen wall colors. The applicant will provide an update to the screen wall plan, based on the outcome of the meeting with the residents, to the Town Council at the July 11, 2023, Town Council meeting.

4. As required by the Town Center Design Guidelines and Ordinance 2021-01, the access to the project is from a right-in/right-out driveway connection to E 6th Avenue with a right-turn lane into the project from E 6th Avenue, as demonstrated as need by the traffic study provided for the project during the approval of the preliminary development plan. There will be an access on the north side of the project to E 5th Avenue. The applicant, as required by Ordinance No. 2021-01, will be providing a transportation mitigation payment of $47,000 ($20,000 for their proportionate share of the estimate cost of an improvement to the Main Street and 6th Ave round-a-bout and $27,000 for the installation of a signalized pedestrian crossing on E 6th Avenue at Oakdale Street).

5. The project will connect to potable water services from Orange County Utilities and be served by an on-site septic system to be permitted by the Orange County Health Department. The Town has no financial obligation for the extension of or connection to any utility services to the project.

6. The project will meet the stormwater management requirements of the South Florida Water Management District to assure post-development impacts do not exceed pre-development impacts of the project. The project qualified for self-certification permitting by the South Florida Water Management District due to the project is less than 10 acres in size with less than 2 acres of impervious area. However, the project must still meet the South Florida Water Management District stormwater standards. Prior to approval by the Town of the site development permit, the applicant must submit confirmation that the statutory required

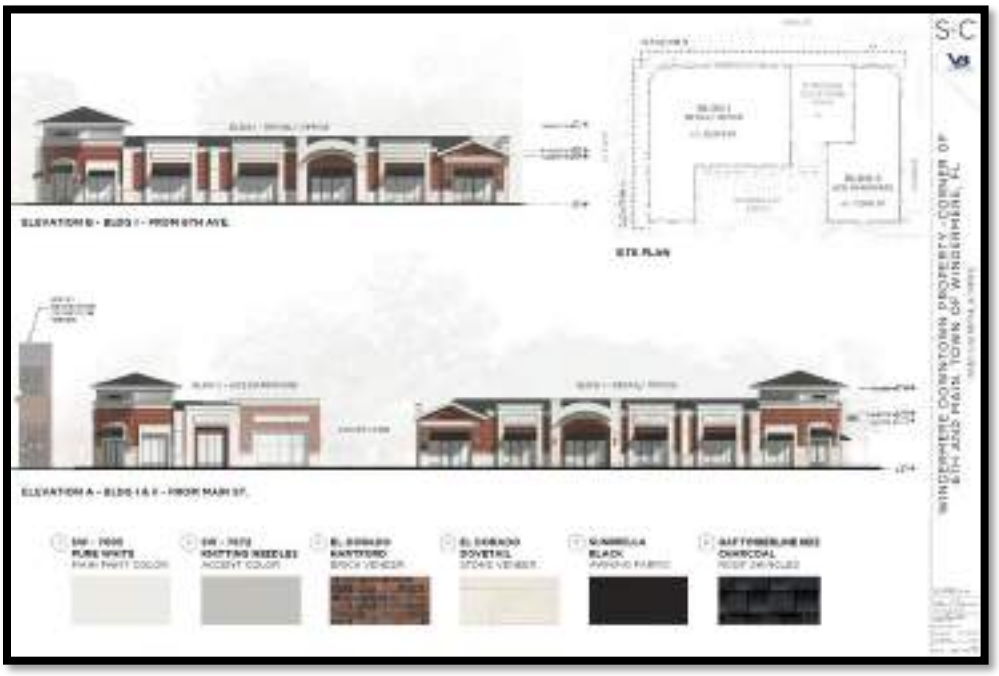
electronic submission of the self-certification was provided to the South Florida Water Management District or the Florida Department of Environmental Protection. The applicant must assure the proper maintenance and operation of the stormwater management system at all times. Prior to Town approval of the site development permit, the applicant must provide a maintenance plan to the Town for the portions of the stormwater management system comprised of pervious pavement materials to assure its proper operation. Also, if it is determined at any time by the Town that the project's stormwater management system is not properly operating and resulting in negative offsite impacts, then the developer shall correct the deficient operation as directed by the Town or other applicable regulatory agency.

7. After several meetings and site visits with the Windermere Tree Board, the applicant has a provided a tree impact, mitigation, and protection plan with their final development plan submission. Based on their May 5, 2023, plans submission, the applicant is required to mitigate 151 inches of trees being removed and not being replaced, as shown in the table in the plan sheets. The applicant has agreed to donate trees to the Town for planting in the town to replace the 151 inches in lieu of paying a mitigation fee. Section 5.01.13, Town LDC, requires that replacement trees must be a species that will attain an overall height of 15 feet at maturity and a diameter at breast height (DBH) of at least four inches, and at least 8 feet in height and DBH of 2 inches at time of planting. Also on May 18, 2023, the Windermere Tree Board held a meeting to review he May 5, 2023, plan submission and recommended to the DRB and the Town Council approve the project with further consideration the replacement of the existing landscaping at the front of the proposed building at the corner of Main Street and E 6th Avenue, and to use American Elms and native Palatka Holly. On June 8, 2023, the applicant provided a response to the Windermere Tree Board approval recommendation comments and confirmed that they will use American Elms and native Palatka Holly, and that their proposed final development plan through all of the previous reviews by the Town Council during the public workshops and the Windermere Tree Board.

8. The proposed building design has developed and changed over the past year with comments received during the four Town Council Public Workshops that occurred between March 2022 and February 2023. On July 3, 2023, based on comments provided by the Development Review Board (DRB) at their meeting on June 20, 2023, the applicant submitted revised building elevations. In the images below, the building elevations submitted to the DRB are in the first image, and the revised building elevations submitted for Town Council review is the second image. The full plan sheet of the revised building elevations for Town Council review is provided as part of the agenda item.

   If this final development plan/major development is approved, the proposed building elevations will be included as part of the approval conditions with a note that minor adjustments may be made to the proposed façade that maintain consistency with the design intent of the Town Center Design Guidelines and approved by the Town Manager, during the building permitting process for the structures.

Original Building Elevations Submitted for DRB Review on June 20, 2023



Revised Building Elevations Submitted for Town Council Review on July 11, 2023

9. Chief Sorenson, Ocoee Fire Department, reviewed the final development plan and

approved the shown fire truck routing plan and the use of the loading area for shared parking. Chief Sorenson's only comment is for the applicant to coordinate with him during the final building permitting for the proper location of the fire hydrant.

10. The Development Agreement provides requirements for construction management to minimize the impact of construction activities to surrounding residential areas. These requirements include, but are not limited to, no off-site storage or staging of equipment or materials, property screened from view at all times, no signage allowed (except safety) during construction, proposed management of debris and dust, no road closures unless approved by the Town Manager, no offsite erosion or stormwater impacts, construction hours and deliveries only allowed between 7:00 a.m. and 7:00 p.m., Monday through Saturday unless otherwise approved by the Town Manager, and proper site security must be maintained.

11. The Development Agreement places a time limit of 18 months for the start of construction after approval. The Town Council may extend the 18 month time limit.

12. If the Town Council approves Ordinance 2023-02, then Town staff will complete any remaining technical reviews, based on the Town Council approval and then issue the site development permit and building permit. The site development permit and building permit will be fully consistent with the Development Agreement and plans approved by the Town Council.

DEVELOPMENT REVIEW BOARD RECOMMENDATION

On June 20, 2023, the Town's Development Review Board (DRB) held a hearing to review and provide a recommendation to the Town Council for the approval of the final development plan/major development site plan for the Windermere Downtown Property redevelopment project. Based on the information provided and comments received at the DRB hearing, the DRB recommended the Town Council approved the Windermere Downtown Property redevelopment project with the following condition that the applicant provide revised building renderings to the Town Council to be more consistent with the Town Center Design Guidelines and to work with Oakdale Street residents with a revised plan for the screen wall related to its color/appearance. The DRB vote to approve with the condition was 5-0.

Whereas, the Owner/Developer is the owner of fee simple title to six separate parcels of real property located within the Town of Windermere, Orange County, Florida totaling approximately 2.17 acres, as more particularly described and depicted on **Attachment A** hereto (the "Property").

Whereas, On June 8, 2021, the Town Council adopted Ordinance 2021-01 for the approval of the Planned Unit Development ("PUD") zoning and Preliminary Development Plan ("PDP") of the Property for a project to be known as Windermere Downtown Property (the "Project"). The Project is a mix of commercial, office, and restaurant uses. Ordinance 2021-01 includes conditions for the development of the PUD and requires the Owner/Developer to submit a Final Development Plan/Major Development Site Plan for approval by the Town Council.

Whereas, as required by Ordinance 2021-01**,** the Owner/Developer has submitted to the Town an application, dated May 2, 2023, for approval of the Final Development Plan and Major Development Site Plan for the Project.

Whereas, the Owner/Developer intends to develop the Property for the Project, as more particularly described and depicted on **Attachment B** hereto, dated **"TBD – Based on Final Plans Approved by Town Council."** (the "FDP").

Whereas, the Town's Development Review Board ("DRB") and the Town Council for the Town of Windermere (the "Town Council") have reviewed the Project as proposed by the Owner/Developer, after appropriate public participation, have determined the conditions, restrictions, and requirements that are needed or useful to ensure that the Project (i) is appropriate to the Town and its history, character, and nature and (ii) does not result in adverse impacts to its residents and taxpayers.

Whereas, the Town and the Owner/Developer now desire to set forth the entitlements, terms, conditions, requirements, and restrictions negotiated by the parties as part of the PUD zoning and Major Development Site Plan for the Property and the Project.

Now, therefore, the Town and the Owner/Developer agree as follows:

1. **Recitals**. The above recitals are true and correct and are incorporated herein by this reference.

2. **Development of the Property**. The Owner/Developer is entitled to develop the Project on the Property. However, development of the Property must conform to and may be undertaken only in accordance with all of the following:

a. The "Construction Plans for Windermere Downtown Property" date stamped **"TBD – Based on Final Plans Approved by Town Council."** attached hereto as **Attachment B** (the "FDP"); and

b. This Agreement.

All development of the Property must comply also with all other applicable federal, state, county, and Town laws, ordinances, and regulations, which are incorporated herein by reference, except to the extent the applicable laws, ordinances, and regulations are expressly waived or modified by this Agreement, or by action expressly approved by the Town Council.

3. **Contract Between the Owner/Developer and the Town**. The uses, densities, and intensities, and all conditions of approval of the PUD zoning and FDP for the Property and the Project, have been negotiated and agreed to by the Owner/Developer and the Town. The FDP and this Agreement, collectively constitute a contract (the "Contract") between the parties. The Owner/Developer and the Owner/Developer's successors in interest have the contract right to develop, occupy, and use the Property with the uses, densities, and intensities set forth in the FDP and this Agreement, subject to the restrictions, requirements, and conditions set forth in the Contract, and neither the Owner/Developer nor the Town shall have the right to rezone or downzone the Property, or otherwise alter the uses, densities, and intensities, or to delete, waive, or amend any condition, requirement, or restriction, except through a written amendment to the PUD, FDP, and this Agreement that is negotiated and expressly approved by both the Owner/Developer and the Town Council. The parties expressly acknowledge that neither oral agreement nor course of action shall act to amend the Contract between the parties, and this section constitutes material inducement and material consideration for each party in electing to enter into this Agreement.

4. **Development-Related Conditions of Approval**. Development of the Project may be undertaken on the Property, but only in compliance with the following conditions, requirements, and restrictions:

a. **Payment for Transportation Improvements**. The Owner/Developer shall pay to the Town $47,000.00 to be used by the Town to pay the cost of transportation improvements to address the impacts of the Project (the "Transportation Improvement Fee"). On or before the date that the first Certificate of Occupancy is issued for the Project, the Transportation Improvement Fee shall be paid to the Town. The Owner's payment of the Transportation Improvement Fee shall fully satisfy all transportation mitigation, concurrency, impact fee, proportionate share and/or any other transportation fee due to the Town for development of the Project on the Property. The Town intends, but shall not be required, to utilize the Transportation Improvement Fee for future improvement to the round-a-bout at Main Street and E 6th Avenue and install a signalized pedestrian crossing at Oakdale Street and E 6th Avenue.

b. **Utilities Agreement**.

(i) **Potable Water.** The Owner/Developer shall connect to potable water services from Orange County Utilities. The Owner/Developer is responsible for the full cost, including design, permitting, and construction, for any potable water line extension, improvements, or other change to the potable water system for connection of the Project to Orange County Utilities potable water service. The Town has no responsibility nor obligation for any costs. If any construction is required within any Town maintained right-of-way, then the Owner/Developer shall obtain a right-of-way permit from the Town's Public Works Department prior to the commencement of any work in the Town's right-of-way. Prior to approval by the Town of the site development permit, the Owner/Developer must submit to the Town all approvals from Orange County Utilities for connection to their potable water service.

(ii) **Wastewater.** The Owner/Developer shall utilize an onsite wastewater disposal system permitted by the Florida Department of Health (aka Orange County Health Department). (iii) **Stormwater.** The Owner/Developer shall design, construct, and maintain a stormwater management system consistent with the requirements of the South Florida Water Management District and the Town. The Town has no responsibility nor obligation for any costs. It is acknowledged that the Project qualifies for self-certification for stormwater management under Section 403.814(12), Florida Statutes. Prior to approval by the Town of the site development permit, the Owner/Developer must submit confirmation that the statutory required electronic submission of the self-certification was provided to the South Florida Water Management District or the Florida Department of Environmental Protection. The Owner/Developer is required to assure the proper maintenance and operation of the stormwater management system at all times. Prior to Town approval of the site development permit, the Owner/Developer must provide a maintenance plan to the Town for the portions of the stormwater management system comprised of pervious pavement materials to assure its proper operation. Also, if it is determined at any time by the Town that the Project's stormwater management system is not properly operating and resulting in negative offsite impacts, then the Owner/Developer shall correct the deficient operation as directed by the Town or other applicable regulatory agency.

c. **Final Development Plan/Major Development Site Plan**. The final development plan/major development site plan ("FDP") and all construction shall be consistent with the "Construction Plans for Windermere Downtown Property" dated "**TBD – Based on Final Plans Approved by Town Council."** subject to the following conditions, requirements, and restrictions:

(i) **Total Entitlements.** The gross floor area for buildings in the Project shall not exceed, in the aggregate, 19,575 square feet. For purposes of

calculating gross floor area, areas used for permanent outside dining shall be deemed to be part of the gross floor area.

(ii) **Permitted Land Uses**. The Property may be used in accordance with the following:

Permitted Uses. The uses of land in the Project are limited to:

- Business and professional offices;
- Government offices and related ancillary uses;

Outdoor Storage and Display. The outdoor storage of any inventory, equipment, or other items is prohibited. However, a permitted retail operation within the Project may utilize the private courtyard area of the Project for the outdoor display of merchandise subject to the limitations of the Town's Land Development Code, which limit the outdoor display to only during Town sanctioned events.

Hours of Operation. Unless otherwise expressly authorized by Town Council, the offices, shops, restaurants, and other non-residential activities within the Project may be open for business only between the hours of 7:00 a.m. and 10:00 p.m. each day.

(iii) **Architecture and Site Design/Screen Wall.** The building architecture and site design, which includes the screen wall along Oakland Street and E 6th Avenue, shall be consistent with the architectural building design and adjacent buffering intent of the Town Center Design Guidelines, as adopted in

Section 3.05.00, Town Land Development Code, or as approved by the Town Council with the FDP.

(iv) **Dumpster Enclosure.** The dumpster shall be screened from view by an enclosure. The dumpster shall have a lid that is to be closed at all times except when garbage is added or removed. No loose garbage shall be placed in the dumpster enclosure.

(v) **On-Site Parking.** At least 79 on-site parking spaces with a minimum dimension of 18.5 feet long by 9 feet wide shall be provided with the Project, as shown on the Town Council approved FDP. For the parking spaces that are shared with the Project's loading zone, the Owner/Developer shall provide appropriate signage in the loading zone to assure the proper coordination of loading/unloading times and general parking times. Prior to the placement of the signage in the loading zone, the Owner/Developer shall submit the proposed signage to the Town to assure its consistency with the design of the Project.

(vi) **Tree Mitigation and Protection.** The Owner/Developer shall follow the tree mitigation and protection plans as provided in the approved FDP. The Owner/Developer shall comply with Sections 5.01.00 through 5.01.18, Town Land Development Code, for the protection of trees during development based on the American National Standards Institute (ANSI) A300 series requirements. The Owner/Developer shall engage and retain the services of a Professional Florida Certified Arborist during the construction of the Project. The Professional Florida Certified Arborist shall assure that appropriate actions are taken by the Owner/Developer to properly protect and maintain the trees that are identified to be protected and to assure the proper removal and mitigation for trees that are approved to be removed. The Town may engage its own Professional Certified Arborist to also oversee the Project and assure compliance with the requirements of the approved tree mitigation plan. The Owner/Developer shall reimburse the Town for the cost of the services of the Town's Professional Certified Arborist.

The Developer/Owner agrees to donate to the Town 151 inches, Diameter at Breast Height (DBH), of replacement trees to mitigate for the removal of 151 inches DBH of tress from the Property, as shown on the Town Council approved FDP. As required by Section 5.01.12, Town Land Development Code, each replacement tree must be a type that will attain an overall height at maturity of at least 15 feet with a DBH of at least four inches, and shall be a minimum of height of at least eight feet with a DBH of least 2 inches at time of planting. The type of tree shall be indigenous to the State of Florida and be listed as an approve tree in the Town Center Design Guidelines or in Section 5.01.18, Town Land Development Code. The Town shall plant the donated trees in Town right-of-way or other Town properties with the review and recommendation for their location by the Town's Tree Board.

As required by Section 5.01.12, Town Land Development Code, if any of the existing protected trees or new trees planted by the Owner/Developer as part of the landscape plan with the approved FDP are deemed by a Florida Certified

Arborist to be dead or beyond recovery, hazardous, or deteriorated, then the Owner/Developer may remove the tree but must replace the removed tree with a new tree planted on site and meeting the same standard for replacement trees in the previous paragraph. The Town reserves the right to engage its own Florida Certified Arborist to confirm the condition of the tree.

(vii) **Site Lighting.** All light fixtures on the Property shall be fully shielded to prevent light and glare from radiating either skyward or beyond the boundaries of the Property.

(viii) **Construction Management.** The Town Council finds that the following construction management requirements are intended to eliminate, as much as possible, the nuisance to Town residents and visitors that might otherwise result from the sights, sounds, dust, and debris from the construction of the Project.

The following requirements and restrictions shall apply to construction activity on the Property:

Construction Staging and Screening — Construction staging *(e.g.,* construction trailers, vehicles, and equipment, material storage, construction-worker parking, construction dumpsters, temporary restrooms, etc.), shall be contained within the boundaries of the Property. During all construction activity, the Property shall be screened to obscure view of the construction site throughout all phases of construction. No signs, advertising, or other communications (other than signs pertaining specifically to construction safety) may be placed on the exterior of the screening.

Construction Staging and Screening — Subsequent Construction, Reconstruction, and Renovation. Staging areas for construction, reconstruction, or renovations occurring from time to time after completion of the Project shall be at such locations as may be approved in writing by the Town Manager. Under no circumstances may the staging occur within public rights-of-way or on Town property without the express approval of Town Council, which may be granted or withheld at the discretion of the Town Council. During all construction activity, the Property shall be screened to obscure view of the construction-staging area site throughout all phases of construction. No signs, advertising, or other communications (other than signs pertaining specifically to the construction safety) may be placed on the exterior of the screening.

Dust and Debris. All debris shall be retained within the boundaries of the Property throughout all construction activities. The Owner/Developer shall not allow dust to escape in material amounts, as determined by the Town Manager, during construction.

Road Closures. No road closures may occur in connection with the construction, unless expressly approved in writing by the Town Manager.

Construction Hours and Deliveries. Construction activity and deliveries of construction materials and equipment for the Project to the Property may only occur between the hours of 7:00 a.m. and 7:00 p.m., Monday through Saturday, unless approved otherwise expressly and in writing by the Town Manager.

Stormwater Retention and Erosion Control During Construction. The Owner/Developer shall take such steps as are necessary or useful to ensure that, at all times during construction, all stormwater from rainfall, up to at least one inch per storm, is retained within the boundaries of the Property and not discharged offsite and appropriate mitigation is provided to maintain proper erosion control during construction. The Owner/Developer shall follow the stormwater and erosion control plan compliant with the requirements of the National Pollution Discharge Elimination System (NPDES) approved with the FDP. All stormwater and erosion control measures must be installed prior to the initiation of any site clearing, demolition, or construction activity on the Property.

Construction-Site Security. The Owner/Developer shall provide a reasonable level of security on the Property throughout the construction period to prevent trespass, theft, bodily injury, and other undesirable occurrences. If, after consultation with the Town's Chief of Police, the Town Manager determines that additional security is needed, the Owner/Developer must provide it at their own cost.

Enforcement. Material violations of these requirements and restrictions, as determined in the reasonable judgment of the Town Manager, may result in the issuance by the Town Manager of a stop-work order. Upon such issuance, the Owner/Developer shall halt all construction immediately and correct the violation. Construction may be resumed only upon notification to the Owner/Developer from the Town Manager that the violation has been corrected, and the Town Manager shall issue such notice immediately upon correction thereof. The Town shall have such other remedies (other than an action for damages) as allowed by law and equity to enforce the provisions of these conditions, including (but not limited to) withholding building permits and certificates of occupancy.

5. Miscellaneous.

a. **Notice.** Notices delivered with respect to this PUD and FDP shall be in writing and be deemed to be delivered (whether or not actually received) when (i) hand delivered to the person(s) hereinafter designated, or (ii) upon deposit of such notice in the United States Postal Service, postage prepaid, certified mail, return receipt requested, addressed to the person at the address set forth opposite the party's name below, or such other address or to such other person as the party shall have specified by written notice to the other party delivered in accordance herewith:

f. **Limitation on Remedies.** In judicial proceedings, the Town and the Owner/Developer shall have the right to enforce the terms and conditions of these Conditions only by an action for specific performance or injunctive relief. Each party expressly waives its right, if any, to seek damages of any type in actions arising from or connected to these Conditions and the Project. Nothing contained in this Agreement nor in any instruments or documents executed pursuant to the terms of this Agreement shall be construed as a waiver or attempted waiver by the Town of its sovereign immunity under the Constitution and laws of the State of Florida.

j. **Breach**. In the event of a breach, default, or violation of one or more of the provisions herein by the Owner/Developer or the Town, the violating party shall be given thirty (30) days to cure such violation upon receipt of written notice of the violation from a non-violating party. In the event such violation is not cured within said period, the Town, or the Owner, as the case may be, shall have the right to pursue the remedies set forth in Section 14.e hereof.

k. **Time Limit to Commence Construction** The Owner/Developer has eighteen months from the Effective Date for the Project to commence substantial construction of the Project. The Town Council may grant successive one-year extensions if the Owner/Developer makes a written request to the Town Manager prior to the applicable expiration date, provided that the plans still comply with the then current Land Development Code. In the event this time period expires and/or no extension is approved, the Town Council has the right at its discretion either to terminate this Agreement or to require the Owner/Developer to comply with any new land development regulations, if any, approved subsequent to the date of this Agreement.

In witness whereof, the Owner/Developer and the Town have caused this Agreement to be executed by their respective, duly authorized representatives as set forth below.

GENERAL

1. IT IS THE CONTRACTOR'S RESPONSIBILITY TO BECOME FAMILIAR WITH THE PERMIT AND INSPECTION REQUIREMENTS SPECIFIED BY THE VARIOUS GOVERNMENTAL AGENCIES AND THE ENGINEER. THE CONTRACTOR SHALL OBTAIN ALL NECESSARY PERMITS, SUCH AS DEWATERING PERMITS, RIGHT OF WAY PERMIT(S), EXCAVATION/FILL PERMIT(S), FIRE PROTECTION PERMIT(S), OR UNDERGROUND UTILITY PERMIT(S), PRIOR TO START OF CONSTRUCTION. THE CONTRACTOR SHALL BE RESPONSIBLE FOR MEETING ALL INSPECTION CRITERIA OF APPLICABLE AGENCIES, SCHEDULING OF INSPECTIONS, AND OBTAINING REQUIRED INSPECTIONS FROM AGENCY.

2. LOCATIONS, ELEVATIONS, AND DIMENSIONS OF EXISTING UTILITIES, STRUCTURES AND OTHER FEATURES ARE SHOWN ACCORDING TO THE BEST INFORMATION AVAILABLE AT THE TIME OF PREPARATION OF THESE PLANS. THE EXISTING UTILITY INFORMATION SHOWN IS BASED ON THE TOPOGRAPHIC SURVEY PROVIDED BY PEC SURVEYING AND MAPPING, LLC. THE CONTRACTOR SHALL VERIFY THE LOCATIONS, ELEVATIONS, AND DIMENSIONS OF ALL EXISTING UTILITIES, STRUCTURES AND OTHER FEATURES, AFFECTING THIS AREA PRIOR TO CONSTRUCTION WORK. THE ENGINEER ASSUMES NO RESPONSIBILITY FOR THEIR ACCURACY OF THE SURVEY. SHOULD A DISCREPANCY ARISE BETWEEN THESE PLANS AND ACTUAL FIELD CONDITIONS, WHICH WOULD APPRECIABLY AFFECT THE EXECUTION OF THESE PLANS, THE CONTRACTOR SHALL HALT CONSTRUCTION AND NOTIFY THE OWNER, ENGINEER, AND APPLICABLE GOVERNING AGENCY IMMEDIATELY.

3. THE CONTRACTOR SHALL BE RESPONSIBLE FOR LOCATING AND VERIFYING (HORIZONTALLY AND VERTICALLY) ALL EXISTING UTILITIES PRIOR TO START OF CONSTRUCTION AND FOR NOTIFYING THE VARIOUS UTILITY COMPANIES (DURING STANDARD BUSINESS HOURS) TO MAKE THE NECESSARY ARRANGEMENTS FOR ANY RELOCATION, TEMPORARY DISTRIBUTION SERVICE, OR CLARIFICATION OF ACTIVITY REGARDING SAID UTILITY. THE CONTRACTOR SHALL EXERCISE CAUTION WHEN CROSSING AN UNDERGROUND UTILITY, WHETHER SHOWN ON THESE PLANS OR FIELD LOCATED. THE CONTRACTOR SHALL COOPERATE WITH UTILITY COMPANY (DURING STANDARD BUSINESS HOURS) DURING RELOCATION OPERATIONS. ANY DELAY OR INCONVENIENCE OF THE VARIOUS UTILITIES SHALL BE INCIDENTAL TO THE CONTRACT AND NO EXTRA COMPENSATION WILL BE ALLOWED. CONTRACTOR SHALL CALL "SUNSHINE ONE" AT 811 TO HAVE EXISTING UTILITIES LOCATED AT LEAST 48 HOURS PRIOR TO CONSTRUCTION.

4. ALL DISTURBED AREAS (ON-SITE AND/OR OFF-SITE) NOT DESIGNED OR NOTED TO BE LANDSCAPED OR SODDED, SHALL BE SODDED.

5. THE CONTRACTOR SHALL NOT EXCAVATE, REMOVE, OR OTHERWISE DISTURB ANY MATERIAL, STRUCTURE, OR PART OF A STRUCTURE WHICH IS LOCATED OUTSIDE THE LINES, GRADES, OR GRADING SECTIONS ESTABLISHED FOR THIS PROJECT, EXCEPT WHERE SUCH EXCAVATION OR REMOVAL IS PROVIDED FOR IN THE CONTRACT, PLANS, OR SPECIFICATIONS. THE CONTRACTOR IS RESPONSIBLE FOR REPAIRING ANY DAMAGE TO EXISTING FACILITIES, ABOVE OR BELOW GROUND, THAT MAY OCCUR AS A RESULT OF THE WORK PERFORMED, BY THE CONTRACTOR OR SUB-CONTRACTORS, AS CALLED FOR IN THESE CONTRACT DOCUMENTS.

6. ALL WORK AND MATERIALS FURNISHED SHALL BE IN CONFORMITY WITH THE LINES, GRADES, GRADING SECTIONS, CROSS SECTIONS, DIMENSIONS, MATERIAL REQUIREMENTS, AND TESTING REQUIREMENTS THAT ARE SPECIFIED IN THE CONTRACT PLANS OR SPECIFICATIONS.

10. THE CONTRACTOR SHALL SUBMIT SHOP DRAWINGS ON ALL PRECAST AND MANUFACTURED ITEMS TO THE OWNER'S ENGINEER FOR REVIEW PRIOR TO ORDERING AND/OR INSTALLATION. FAILURE TO DO SO MAY RESULT IN REMOVAL AND REPLACEMENT AT THE CONTRACTOR'S EXPENSE.

11. CONTRACTOR TO COORDINATE WITH THE APPLICABLE ELECTRIC UTILITY SUPPLIER REGARDING ANY NECESSARY RELOCATION(S) OF UNDERGROUND AND/OR OVERHEAD ELECTRIC FACILITIES, AND FOR THE LOCATION AND INSTALLATION OF TRANSFORMER PAD(S) AND ASSOCIATED ELECTRIC FACILITIES.

12. THE CONTRACTOR SHALL RESTORE OFF-SITE CONSTRUCTION AREAS TO EQUAL AND/OR BETTER CONDITION THAN EXISTING PRIOR TO START OF CONSTRUCTION.

13. THE CONTRACTOR SHALL COMPLY WITH THE LEGAL LOAD RESTRICTIONS IN HAULING OF MATERIALS IN PUBLIC ROADS BEYOND THE LIMITS OF WORK. A SPECIAL PERMIT WILL NOT RELIEVE THE CONTRACTOR OF LIABILITY FOR THE DAMAGE WHICH MAY RESULT FROM THE MOVING OF MATERIAL AND EQUIPMENT.

14. SURVEY MONUMENTS OR BENCHMARKS, WHICH HAVE TO BE DISTURBED BY THIS WORK, SHALL BE REPLACED UPON COMPLETION OF WORK BY A LICENSED LAND SURVEYOR CURRENTLY REGISTERED IN THE STATE OF FLORIDA.

15. CONTRACTOR SHALL TRIM, TACK AND MATCH EXISTING PAVEMENT AT LOCATIONS WHERE NEW PAVEMENT MEETS EXISTING PAVEMENT.

16. CURBING SHALL BE PLACED AT THE EDGES OF ALL PAVEMENT, UNLESS OTHERWISE NOTED. REFER TO THE THE LATEST EDITION OF F.D.O.T. DISCOVERED ON-SITE MUST BE PLUGGED BY A LICENSED WELL DRILLING CONTRACTOR IN A MANNER APPROVED BY ALL APPLICABLE JURISDICTIONAL AGENCIES. CONTRACTOR SHALL BE RESPONSIBLE FOR OBTAINING ANY WELL ABANDONMENT PERMITS REQUIRED. ANY WELL DISCOVERED DURING EARTHWORK OR EXCAVATION SHALL BE REPORTED TO THE APPROPRIATE JURISDICTIONAL AGENCIES, OWNER, AND OWNER'S ENGINEER WITHIN 24 HOURS AFTER DISCOVERY IS MADE.

SAFETY

1. ALL SUBSURFACE CONSTRUCTION SHALL COMPLY WITH THE "TRENCH SAFETY ACT". THE CONTRACTOR SHALL INSURE THAT THE METHOD OF TRENCH PROTECTION AND CONSTRUCTION IS IN COMPLIANCE WITH THE OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION (OSHA) REGULATIONS. IT SHALL BE THE SOLE RESPONSIBILITY OF THE CONTRACTOR TO COMPLY AND ENFORCE ALL APPLICABLE SAFETY REGULATIONS. THE CONTRACTOR OR HIS REPRESENTATIVE SHALL BE RESPONSIBLE FOR THE CONTROL AND SAFETY OF THE TRAVELING PUBLIC AND THE SAFETY OF HIS/HER PERSONNEL. LABOR SAFETY REGULATIONS SHALL CONFORM TO THE PROVISIONS SET FORTH BY OSHA IN THE FEDERAL REGISTER OF THE DEPARTMENT OF TRANSPORTATION. THE MINIMUM STANDARDS AS SET FORTH IN THE CURRENT EDITION OF "THE STATE OF FLORIDA, MANUAL ON TRAFFIC CONTROL AND SAFE PRACTICES FOR STREET AND HIGHWAY CONSTRUCTION, MAINTENANCE AND UTILITY OPERATIONS" SHALL BE FOLLOWED IN THE DESIGN, APPLICATION, INSTALLATION, MAINTENANCE AND REMOVAL OF ALL TRAFFIC CONTROL DEVICES, WARNING DEVICES AND BARRIERS NECESSARY TO PROTECT THE PUBLIC AND CONSTRUCTION PERSONNEL FROM HAZARDS WITHIN THE PROJECT LIMITS. CONTRACTOR SHALL PROVIDE FOR THE SAFETY AND CONTROL OF LOCAL TRAFFIC DURING CONSTRUCTION. ADDITIONAL INFORMATION MAY BE REQUIRED IF LANE CLOSURE DURATIONS ARE LONGER THAN DAYTIME OPERATIONS.

TREES AND VEGETATION

1. THE CONTRACTOR IS TO MINIMIZE THE REMOVAL OF VEGETATION TO THE GREATEST EXTENT PRACTICAL. NO TREES SHALL BE REMOVED OR DAMAGED WITHOUT OWNER'S APPROVAL. TREES IN CLOSE PROXIMITY TO CONSTRUCTION SHALL BE PROTECTED BY ORANGE FENCING.

2. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE MAINTENANCE OF ALL LANDSCAPE BUFFERS AND RETENTION AND DETENTION FACILITIES UNTIL THE WORK HAS BEEN ACCEPTED BY THE OWNER. ALL DISTURBED AREAS SHALL BE RETURNED TO THEIR ORIGINAL CONDITION.

3. REFER TO TREE MITIGATION PLANS AND BIOTECH ENVIRONMENTAL ASSESSMENT FOR DETAILS REGARDING TREE REMOVAL AND TREE PRESERVATION.

EARTHWORK / GRADING / DEMUCKING PROCEDURES

1. A GEOTECHNICAL ENGINEERING INVESTIGATION REPORT HAS BEEN PREPARED, OF WHICH COPIES ARE AVAILABLE THROUGH THE OWNER OR THEIR SOIL TESTING COMPANY. A GEOTECHNICAL ENGINEER SHALL BE RETAINED BY THE CONTRACTOR TO PROVIDE ON-SITE INSPECTIONS DURING EXCAVATION/FILL OPERATIONS AND TESTING OF THE COMPACTED FILL (SITE WORK, PONDS, FRONTAGE ROAD, EVERGREEN WOODS TRAIL) SO THAT PROPER DOCUMENTATION OF THE REQUIRED COMPACTING CRITERIA CAN BE PROVIDED.

2. CONTRACTOR TO FOLLOW THE GUIDANCE OF THE REFERENCED GEOTECHNICAL ENGINEERING INVESTIGATION REPORT OR INDICATE WHETHER ON-SITE GEOTECHNICAL ENGINEER SHALL DETERMINE DEPTH OF DEMUCKING AND/OR REMOVAL OF UNSUITABLE FILL.

3. ALL EXISTING DEBRIS (ABOVE OR BELOW GROUND), CONSTRUCTION DEBRIS AND OTHER WASTE MATERIAL SHALL BE DISPOSED OF OFF-SITE BY THE CONTRACTOR, IN ACCORDANCE WITH APPLICABLE REGULATORY AGENCY REQUIREMENTS IN A LEGAL MANNER.

4. UNLESS OTHERWISE NOTED, GRADE TO MEET EXISTING ELEVATION AT PROPERTY LINES. FINAL GRADES SHOWN INCLUDE SOD HEIGHT. PROPOSED SPOT ELEVATIONS REPRESENT FINISHED PAVEMENT OR GROUND SURFACE GRADES, UNLESS OTHERWISE NOTED. IT MAY BE NECESSARY TO FIELD ADJUST PAVEMENT ELEVATIONS TO PRESERVE THE ROOT SYSTEMS OF TREES SHOWN TO BE SAVED. CONTRACTOR TO COORDINATE WITH OWNER'S ENGINEER PRIOR TO ANY ELEVATION CHANGES. ALL AREAS SHALL BE GRADED TO DRAIN AWAY FROM THE BUILDINGS.

5. ALL DELETERIOUS SUBSURFACE MATERIAL (I.E. MUCK, PEAT, BURIED DEBRIS) IS TO BE EXCAVATED AND REPLACED WITH SUITABLE/COMPACTED SOILS, AS DIRECTED BY THE OWNER OR THEIR SOILS TESTING COMPANY. DELETERIOUS MATERIAL IS TO BE STOCKPILED OR REMOVED FROM THE SITE AS DIRECTED BY THE OWNER. EXCAVATED AREAS ARE TO BE BACKFILLED WITH APPROVED MATERIALS AND COMPACTED AS SHOWN ON THESE PLANS. CONTRACTOR IS RESPONSIBLE FOR ACQUIRING ANY PERMITS THAT ARE NECESSARY FOR REMOVING DELETERIOUS MATERIAL FROM THE SITE.

6. THE CONTRACTOR SHALL BE RESPONSIBLE FOR PROTECTING EXCAVATIONS AGAINST COLLAPSE AND WILL PROVIDE BRACING, SHEETING OR SHORING AS NECESSARY. DEWATERING METHODS SHALL BE USED AS REQUIRED TO KEEP TRENCHES DRY WHILE PIPE AND APPURTENANCES ARE BEING PLACED.

7. ALL NECESSARY FILL AND EMBANKMENT THAT IS PLACED DURING CONSTRUCTION SHALL CONSIST OF MATERIAL SPECIFIED BY THE OWNER'S SOILS TESTING COMPANY OR ENGINEER AND BE PLACED AND COMPACTED ACCORDING TO THESE PLANS.

8. THE CONTRACTOR SHALL INSURE THAT PROPER SOIL DENSITIES ARE ACHIEVED FOR PLACEMENT OF ALL HEADWALL/ENDWALL FOOTINGS, RETAINING WALL FOOTINGS, AND IN GENERAL, ANY FOOTING SUPPORT DESCRIBED ON THESE PLANS. IT WILL ALSO BE THE RESPONSIBILITY OF THE CONTRACTOR TO INSURE THAT SUFFICIENT SOILS TESTING HAS BEEN PERFORMED PRIOR TO FINAL INSTALLATION OF IMPROVEMENTS.

11. UPON APPROVAL OF THE GEOTECHNICAL ENGINEER, THE EXCAVATED AREAS MAY BE BACKFILLED WITH CLEAN FINE SAND FREE OF UNSUITABLE OR DELETERIOUS MATERIAL. HOWEVER, THE FILL SHOULD NOT BE PLACED IN MORE THAN 6 INCHES OF STANDING WATER. ONCE THE FILL IS AT LEAST 2 FEET ABOVE THE DEWATERED LEVEL, BACKFILLING MAY PROCEED AS DIRECTED BY THE GEOTECHNICAL ENGINEER.

12. SEDIMENT CONTROL MEASURES SHOULD BE EMPLOYED DURING THE CONSTRUCTION PROCESS TO KEEP THE POND FROM RECEIVING SIGNIFICANT AMOUNTS OF STORMWATER RUNOFF FROM THE SURROUNDING CONSTRUCTION SITE. THIS RUNOFF IS LIKELY TO CONTAIN SUSPENDED FINE-GRAINED SOIL PARTICLES THAT CAN IMPEDE THE INFILTRATION CAPACITY OF THE PONDS IF ALLOWED TO SETTLE OUT ON THE POND BOTTOMS. IF DEWATERING EFFLUENT OR STORMWATER RUNOFF FROM THE ACTIVE CONSTRUCTION SITE IS DISCHARGED TO THE POND, CONTRACTOR SHALL SCRAPE AND REMOVE FINE-GRAINED SEDIMENTS THAT HAVE ACCUMULATED ON THE POND BOTTOM, AND REPLACE WITH SUITABLE SOIL TO THE PLAN SPECIFIED GRADE ELEVATIONS. REQUIRED DEPTH OF SCRAPE AND REMOVAL SHALL BE DETERMINED BY GEOTECHNICAL ENGINEER.

DEWATERING NOTES

1. DURING THE EXCAVATION OF THE STORMWATER FACILITIES, AND IF GROUNDWATER IS ENCOUNTERED, THE CONTRACTOR SHALL CONSTRUCT A SEDIMENT BASIN TO PROVIDE A DISCHARGE POINT FOR DEWATERING. THE SEDIMENT BASIN CAN BE CELL IN THE PROPOSED EXCAVATION AREA OF A POND OR IT CAN BE A BERMED AREA ABOVE GROUND. THE STORMWATER MANAGEMENT SYSTEM WAS DESIGNED TO MEET OR EXCEED ALL THE REQUIREMENTS OF THE SOUTH FLORIDA WATER MANAGEMENT DISTRICT (SFWMD), TOWN OF WINDERMERE, AND ORANGE COUNTY.

STABILIZATION PRACTICES:

TEMPORARY STABILIZATION - TOPSOIL STOCK PILES AND DISTURBED PORTIONS OF THE SITE WHERE CONSTRUCTION ACTIVITY TEMPORARILY OR PERMANENTLY CEASE, SHALL BE STABILIZED WITH TEMPORARY SEED AND MULCH WITHIN 7 DAYS OF THE LAST CONSTRUCTION ACTIVITY IN THAT AREA. THE TEMPORARY SEED REQUIRED CAN BE FOUND IN TABLE 1.65 A OF THE FLORIDA DEVELOPMENT MANUAL. PRIOR TO SEEDING, WHERE SOILS ARE ACIDIC 2 TONS OF PULVERIZED AGRICULTURAL LIMESTONE SHOULD BE ADDED PER ACRE AND 450 POUNDS OF 10-20-20 FERTILIZER SHALL BE APPLIED TO EACH ACRE. AFTER SEEDING, EACH AREA SHALL BE IMMEDIATELY MULCHED WITH STRAW OR EQUIVALENT EQUAL. AREAS OF THE SITE WHICH ARE TO BE PAVED SHALL BE TEMPORARILY STABILIZED BY APPLYING GEOTEXTILE AND STONE SUB-BASE UNTIL BITUMINOUS PAVEMENT CAN BE APPLIED.

PERMANENT STABILIZATION - DISTURBED PORTIONS OF THE SITE WHERE CONSTRUCTION ACTIVITIES PERMANENTLY CEASE SHALL BE STABILIZED WITH PERMANENT SEED NO LATER THAN 7 DAYS AFTER THE LAST CONSTRUCTION ACTIVITY. THE APPROPRIATE PERMANENT SEED MIX CAN BE FOUND IN TABLES 1.66A, 1.66B AND 1.66C OF THE FLORIDA DEVELOPMENT MANUAL. SEDIMENT BASIN - A SEDIMENT BASIN SHALL BE CONSTRUCTED IN THE COMMON DRAINAGE AREA FOR THE SITE. ALL SEDIMENT COLLECTED IN THE BASIN MUST BE REMOVED FROM THE BASIN UPON COMPLETION OF CONSTRUCTION. SEDIMENT FROM THE BASIN MAY BE USED AS FILL ON THE SITE IF IT IS SUITABLE SOIL.

WASTE DISPOSAL

WASTE MATERIALS - ALL WASTE MATERIALS SHALL BE COLLECTED AND STORED IN A METAL DUMPSTER WITH A SECURE LID IN ACCORDANCE WITH ALL LOCAL AND STATE LAWS. ALL TRASH AND CONSTRUCTION DEBRIS FROM THE SITE SHALL BE DEPOSITED IN THE DUMPSTER. THE SUPERINTENDENT SHALL COORDINATE WITH THE LOCAL UTILITIES TO HAVE THE DUMPSTER EMPTIED AT LEAST TWICE A WEEK AND THE WASTE TAKEN TO AN APPROPRIATE LANDFILL. NO CONSTRUCTION WASTE MATERIALS SHALL BE BURIED ON SITE. THE SUPERINTENDENT SHALL ORGANIZE TRAINING FOR THE EMPLOYEES IN THE PROPER PRACTICES WHEN DEALING WITH WASTE MATERIALS. THE SUPERINTENDENT SHALL BE RESPONSIBLE FOR POSTING AND ENFORCING WASTE MATERIAL PROCEDURES.

HAZARDOUS WASTE - HAZARDOUS WASTE MATERIALS SHALL BE DISPOSED OF IN ACCORDANCE WITH ALL LOCAL AND STATE LAWS OR AS DIRECTED BY THE MANUFACTURER. THE SUPERINTENDENT SHALL ORGANIZE THE PROPER TRAINING FOR EMPLOYEES IN THE PROPER PRACTICES WHEN DEALING WITH HAZARDOUS WASTE MATERIALS. THESE PROCEDURES SHALL BE POSTED ON THE SITE. THE PERSON WHO MANAGES THE SITE SHALL BE RESPONSIBLE FOR ENFORCING THE PROCEDURES.

SANITARY WASTE - SANITARY WASTE SHALL BE COLLECTED AND DISPOSED OF IN ACCORDANCE WITH ALL LOCAL AND STATE LAWS. THE SUPERINTENDENT SHALL COORDINATE WITH THE LOCAL UTILITY FOR COLLECTION OF THE SANITARY WASTE AT LEAST THREE TIMES A WEEK TO PREVENT SPILLAGE ONTO THE SITE.

OFF-SITE TRACKING

A STABILIZED CONSTRUCTION ENTRANCE SHALL BE PROVIDED TO REDUCE SEDIMENT TRACKING OFFSITE. THE CONTRACTOR SHALL PROMPTLY REMOVE ALL MUD, DIRT, OR OTHER MATERIALS TRACKED OR SPILLED ONTO EXISTING PUBLIC ROADS AND FACILITIES, DUE TO CONSTRUCTION. ALL TRUCKS HAULING MATERIALS OFFSITE SHALL BE COVERED WITH A TARPAULIN.

DUST & DEBRIS CONTROL

THE CONTRACTOR SHALL BE RESPONSIBLE FOR DUST CONTROL WITHIN THE CONSTRUCTION LIMITS AS WELL AS ALONG HAUL ROUTES AND ROADWAYS USED BY THE EQUIPMENT AND VEHICLES. THE CONTRACTOR SHALL ENSURE THAT EXCESSIVE DUST IS NOT TRANSPORTED BEYOND THE LIMITS OF CONSTRUCTION IN POPULATED AREAS. THE CONTRACTOR MAY CONTROL DUST FOR EMBANKMENTS OR OTHER CLEARED OR UNSURFACED AREAS BY APPLYING WATER. INSTALL MULCH, SEED, SOD, OR TEMPORARY PAVING AS EARLY AS PRACTICAL. CONTROL DUST DURING STORAGE AND HANDLING OF DUSTY MATERIALS BY WETTING, COVERING, OR OTHER MEANS AS APPROVED BY THE ENGINEER.

BUILDING 1 USE: RESTAURANT OPERATING 16 HRS OR LESS PER DAY & OFFICE SPACE
BUILDING 2 USE: RETAIL BUILDING

WASTEWATER FLOW (BLDG1): 40 GPD PER SEAT (RESTAURANT)
15 GPD PER 100 SF OF FLOOR SPACE
WASTEWATER FLOW (BLDG2): 0.1 GPD PER SF OF FLOOR SPACE

TOTAL ESTIMATED BLDG 1 WASTEWATER FLOW:
OFFICE: (5,145 SF X 15 GPD)/100 SF = 771.75 GPD
RESTAURANT: 98 SEATS X 40 GPD/SEAT = 3,920 GPD

TOTAL ESTIMATED BLDG 2 WASTEWATER FLOW:
7,000 SF X 0.1 GPD/SF = 700 GPD

TOTAL WASTEWATER FLOW TO SEPTIC = 771.75+3,920+700 = 5,392 GPD

DRAINFIELD SIZING CALCULATIONS

FL. DEPT OF HEALTH, CHAPTER 64E-6, ONSITE SEWAGE TREATMENT AND DISPOSAL SYSTEMS, TABLE III, FOR SIZING DRAINFIELDS OTHER THAN MOUNDS:

EXISTING SOILS: "TAVARES" - "FINE SAND"

MAX SEWAGE LOADING RATE: 0.90 GALLONS PER SQ. FT. PER DAY (TRENCH)

PERC RATES WERE MEASURED IN A RANGE OF 0' TO 20' BELOW EXISTING GROUND AT THE PROPOSED DRAINFIELD AND RESULTED IN 5.65 INCHES PER HOUR.

THIS INFILTRATION RATE IS NOT ACCEPTABLE, REQUIRED TO EXCAVATE AND REMOVE 24" OF MATERIAL BELOW CHAMBER BOTTOM AND REPLACE ENTIRE DRAINFIELD WITH NEW CLEAN FINE SAND WITH A MINIMUM PERCOLATION RATE RANGING FROM 2 MINUTES PER INCH TO MINUTES PER INCH. THIS RESULT IN AN ALLOWED LOADING RATE OF 0.90 GALLONS PER SF PER DAY (TRENCH).

5,392 GPD SEWAGE FLOW / 0.90 GAL PER SF PER DAY FOR TRENCH
= 5,991 SF DRAIN FIELD AREA MINIMUM
= 6,262 SF DRAIN FIELD AREA PROVIDED (152'X31' & 62'X25')

DRAINFIELD PRODUCT CALCULATIONS

FL. DEPT OF HEALTH, CHAPTER 64E-6.009(7) F.A.C., ALTERNATIVE DRAINFIELD SYSTEM COMPONENTS:

BIO DIFFUSER "BIO 3" (ARC 24) - 21.6 SF/CHAMBER - 4'-6" SPACING IN BED

3. VERIFY THAT EACH PAVEDRAIN UNIT MAKES CONTACT WITH THE GEOGRID OR OPEN-GRADED AGGREGATE SUB-BASE AND IS TIGHTLY ENGAGED WITH ADJACENT UNITS.

4. WHEN NECESSARY, MAKE PARTIAL UNITS FROM SAW CUTTING SOLID, ARCH-LESS PAVEDRAIN UNITS. TRANSITIONS AGAINST CURBS AND OTHER RIGID PAVEMENTS SHOULD BE MADE WITH MAXIMUM ONE-HALF (1/2) INCH GAPS UTILIZING SOLID, END AND HALF PAVEDRAIN UNITS.

C. ADJUSTMENTS

1. MINOR ADJUSTMENTS TO PROPERLY ENGAGE PAVEDRAIN UNITS SHALL BE MADE WITH A DEAD BLOW HAMMER OR RUBBER MALLET.

2. ONCE ALL PAVEDRAIN UNITS HAVE BEEN INSTALLED, MINOR DIFFERENTIAL HEIGHTS BETWEEN UNITS CAN BE CORRECTED WITH A SMALL NON-VIBRATORY SINGLE OR DOUBLE BARREL ROLLER COMPACTOR OR VIBRATORY PLATE COMPACTOR. WHEN USING PLATE COMPACTOR, PROTECT UNITS WITH NONWOVEN GEOTEXTILE OR MAT TO ELIMINATE SCUFFING.

3. INSPECT COMPLETED INSTALLATION AND REPLACE ANY CRACKED OR DAMAGED UNITS.

3.5 TOLERANCES

A. NO INDIVIDUAL PAVEDRAIN UNIT SHALL PROTRUDE MORE THAN ONE-QUARTER (1/4) INCH WITHIN THE PLANE OF FINAL PLACED UNITS/MATS.

INSTALLATION NOTES:

A. POST SELECTION SHOULD BE BASED ON EXPECTED STRENGTH NEEDS AND THE LENGTH OF TIME FENCE WILL BE IN PLACE. FLEXIBLE FIBERGLASS ROD POSTS ARE RECOMMENDED FOR PARKS, ATHLETIC EVENTS AND CROWD CONTROL INSTALLATIONS. METAL "T" POSTS OR TREATED WOOD POSTS ARE TYPICALLY USED FOR CONSTRUCTION AND OTHER APPLICATIONS.

B. POSTS SHOULD BE DRIVEN INTO THE GROUND TO A DEPTH OF 1/3 OF THE HEIGHT OF THE POST. FOR EXAMPLE, A 6' POST SHOULD BE SET AT LEAST 2' INTO THE GROUND.

C. SPACE POSTS EVERY 6' (MIN.) TO 8' (MAX.).

D. SECURE FENCING TO POST WITH NYLON CABLE TIES (AVAILABLE FROM CONWED PLASTICS). WOOD STRIPS MAY BE ALSO BE USED TO PROVIDE ADDITIONAL SUPPORT AND PROTECTION BETWEEN TIES AND POSTS.

NOTE: IF WIRE TIES ARE USED, AVOID DIRECT CONTACT WITH FENCE. WIRE MAY DAMAGE FENCE OVER TIME.

TABLE OF CONTENTS

1 SUMMARY

The Windermere Downtown Property project proposes the development of a 2.17-acre property for commercial purposes. The proposed project is located at the northeast corner of East 6th Avenue and Main Street in the Town of Windermere, Florida. In **Appendix A**, the limits of the project have been superimposed on a general location map, an aerial photograph, the USGS Quad map, and the FEMA Flood Insurance Rate Map (FIRM).

Stormwater runoff from the proposed development will be managed by an underground exfiltration system located within the parking lot and drive aisles of the site. The BMPs will provide treatment (quality) volume and attenuation (quantity) volume for the proposed development.

The proposed stormwater management system has been designed to meet or exceed all the requirements of South Florida Water Management District (SFWMD) and the Town of Windermere, FL.

2 EXISTING CONDITIONS

The existing property has minimal development with three (3) existing buildings along Main St. and two (2) single family homes along Oakdale. No wetlands exist on site. No existing stormwater treatment is provided on site.

Based on the topographic survey, the site slopes northwest. Elevations vary between ±124.63-ft along E. 6th Ave. and 121.30-ft (NAVD88) near the northwest property limits. Per the FEMA FIRM (Map Number 12095C0385F dated Sept. 25, 2009) located in Appendix A, the site is located in 'Zone X,' "Areas determined to be outside the 0.2% (500-year) annual chance floodplain".

2.1 SOILS

ECS Florida, LLC (ECS) performed a subsurface exploration and geotechnical engineering report for the proposed site. Please refer to the Geotechnical Engineering Report(s) prepared by ECS, dated May 27, 2022. Additionally, the SCS Soil Survey for the proposed site can be found in **Appendix A**.

2.2 GROUNDWATER

The groundwater levels were investigated and determined by Terracon and were included as part of their Geotechnical Engineering Report(s). Please refer to the Geotechnical Engineering Report(s) prepared by Terracon, dated May 27,2022.

Stormwater Management Area	Boring Label	Existing Conditions Natural Ground (ft.) (NAVD)	Measured Groundwater Approx. Elevation (ft.) (NAVD)	Estimated SHWT (ft.) (NAVD)	Control Elevation Used (ft.) (NAVD)

	R-02	122.82	113.32	114.82	

2.3 EXISTING DRAINAGE

The existing undeveloped property contains no stormwater BMPs for onsite stormwater. The site is broken up into two (2) basins. Basin A (0.17-acres) is located at the southern edge of the site along E 6th Ave. and drains directly offsite into drainage inlets along E. 6th Avenue. Basin B (2.0-acres) is the majority of the site and drains northwest towards 5th Avenue. Runoff from Basin B is collected in drainage inlets along E. 5th Avenue. Site discharges from the property entering the inlets along E. 6th Ave. and E. 5th Ave. will enter the master drainage system originally permitted under SFWMD Permit No. 040701-24.

Please also refer to the USGS Quad Map in Appendix A and the Pre-Development Basin Map located in **Appendix B**.

2.3.1 BASINS

Existing site conditions consist of two (2) basin. Basin-A is a 0.17 acre basin at the south side of the site along E. 6th Avenue. Basin-B is a 2.0 acre basin that drains northwest to E. 5th Avenue. The table below provides the existing basin characteristics used to model existing conditions. Please refer to **Appendix A** for an exhibit showing location of basins under existing conditions.

	Basin A	Basin B
Drainage Basin Area (acres)	0.17	2.00
Time of Conc., TC (min.)	10	31
Composite Curve Number, CN	63.6	49.3
Node	South Outfall	North Outfall

Table 1:Existing Pre-Development Basin Summary Table

2.3.2 CN CALCULATIONS

CN values for the proposed property are based on the USGS values associated with the existing condition soils. See **Appendix B** for the associated drainage calculations and **Appendix D** for the modeling.

2.3.3 TIME OF CONCENTRATION

Time of concentration for Basin B has been calculated and included in

Appendix B. Due to the small size of Basin A, the time of concentration for this basin has been assumed to be the minimum 10-minute value based on TR-55 guidance.

2.3.4 TAILWATER CONDITION

The tailwater conditions for the boundary outfalls are based on the existing grades in the area the site ultimately outfalls. The associated tailwater grades are based on the topographic survey grades provided by Accuright Surveys of Orlando, Inc. dated March 17, 2021.

2.3.5 EXISTING DEVELOPMENT RUNOFF

The stormwater runoff from the pre-development basins was determined using Advanced Interconnected Channel & Pond Routing (ICPR v4.07.08) by Streamline Technologies, Inc. Please refer to **Appendix D** for the ICPR pre-development input data and drainage analysis results.

3 PROPOSED DEVELOPMENT

The Windermere Downtown Property project proposes the development of a 2.17-acre property for commercial purposes. Stormwater runoff from the proposed development will be managed by an underground exfiltration system located within the parking lot and drive aisles of the site. The BMPs will provide treatment (quality) volume and attenuation (quantity) volume for the proposed development. The proposed stormwater management system has been designed to meet or exceed all the requirements of South Florida Water Management District (SFWMD) and the Town of Windermere, FL.

3.1 STORMWATER MANAGEMENT

The proposed site is broken into two (2) basins, “Basin-A” and “Basin-B”. All stormwater within Basin-A drains into the Basin-A exfiltration trench system. All stormwater within Basin-B drains into the Basin-B exfiltration trench system. Exfiltration trenches A and B are interconnected to provide a combined treatment and attenuation volume.

The tables below summarize the parameters of the proposed exfiltration trenches and the control structure utilized in the stormwater design.

3.1.1 BASINS

The post-development drainage conditions were analyzed with multiple drainage basins. Please refer to *Table 2* below for the post-development contributing basin summary, and the Post-Development Drainage Basin Map located in **Appendix C** for details.

	Basin-A	Basin-B
Drainage Basin Area (acres)	1.738	0.694
Total Impervious Area (acres)	1.029	0.265
% Impervious	59.2%	38.2%
Time of Conc., TC (min.)	10	10
Composite Curve Number, CN	73.9	61.5
Node	Basin-A	Basin-B

Table 2: Proposed POST-Development Basin Summary Table

3.1.2 CN CALCULATIONS

A summary of the basin areas and associated CN numbers can be found in *Table 2* above. The CN calculations for the post-development conditions can be seen in **Appendix C**.

3.1.3 TIME OF CONCENTRATION

The time of concentration ('Tc') for the improved post-development drainage basins were established at 10 minutes. Please refer to the Post-Development Drainage Basin Map in **Appendix C**.

3.1.4 TAILWATER CONDITIONS

The tailwater conditions for the post-development condition are the same as the pre-development condition. Please refer to Section 2.3.4.

3.1.5 WATER QUALITY (TREATMENT) VOLUME (PER SFWMD)

Multiple stormwater systems will be utilized for the Best Management Practice (BMP) to reduce the discharge of pollutants associated with stormwater runoff from the development. The following standards are the water quality volume requirements per SFWMD ERP Applicants Handbook, Volume II, Section 4.2.1:

The Greater of:

0.5" of runoff over the Basin

OR

1.25" times the percentage of Impervious Area

PLUS

Additional 50% water quality treatment volume (for Impaired water body)

See *Table 3* below for a summary of the required and provided retention water quality (treatment) volumes. Please see **Appendix D** for water quality volume calculations.

Table 3: Required Wet Pond Treatment Volumes

Drainage Area	Drainage Area (acres)	Imp. Area for Water Quality (acres)	Required Water Quality Volume				***Provided Water Quality Volume
			0.5" Over Site	1.25" Over Impervious Area	50% Add. Impaired	Total Required	
BASIN-A	1.738	0.709	0.07 ac-ft	0.10 ac-ft	0.05 ac-ft	**0.15 ac-ft**	**0.56 ac-ft**
BASIN-B	0.694	0.265	0.03 ac-ft	0.03 ac-ft	0.01 ac-ft	**0.04 ac-ft**	**0.17 ac-ft**

3.1.6 WATER QUALITY VOLUME RECOVERY

Per SFWMD criteria, the exfiltration trenches are required to recover the treatment volume within 72 hours (3 days) following a storm event.

Table 4 below provides the Kh and Kv values used to model the recovery within the exfiltration trenches. A safety factor of 2.0 has been applied to the K_h & K_v rates. Any fill used to bring the system to the design elevation will be required to have these permeability rates.

Table 4: Permeability Rates

Node Name	K (Horizontal)* ft/day	K (Vertical)* ft/day
Basin A	10.65	7.1
Basin B	10.65	7.1

**Value includes safety factor of 2*

Recovery was determined utilizing ICPR (v4.07.08). As designed, the exfiltration trenches drawdown the required volume in less than 72 hours. Please see **Appendix E** for supporting recovery analysis and results.

3.1.7 PROPOSED DEVELOPMENT RUNOFF

The stormwater runoff from the post-development basins was determined using ICPR (v4.07.08) by Streamline Technologies, Inc. Please refer to **Appendix C** for the post-development drainage analysis results, input data, and nodal diagram. Please refer to *Table 5* below for a summary of the pre- vs. post- development peak discharge rates (Q).

Table 5: Peak Discharge Summary

	Pre-Development North Outfall Q_{max} (CFS)	**Post-Development North Outfall Q_{max} (CFS)**
25yr-72hr Storm Event	2.89	2.64

Table 6: Pond Maximum Stage Summary

Storm Event	**Basin A Max Stage (ft.) (NAVD)**	**Basin B Max Stage (ft.) (NAVD)**
10yr-24hr	121.51	121.51
25yr-72hr	122.79	122.76
100yr-72hr	123.33	123.01
Top of Trench/Pavers	123.25	120.00

3.1 CONCLUSION

This Drainage Analysis demonstrates the proposed improvements and design of the proposed stormwater management system meet or exceeds all the requirements of the South Florida Water Management District (SFWMD) and the Town of Windermere.

This is a residential neighborhood, already dealing with terrible traffic problems. This will bring more traffic on W Story and park parking on Orlando & Magnolia.

COMMENTS: I believe it will have negative consequences for the town's character and property values. Windermere is a town that values old time charm & rural character. The traffic is awful so we don't need to bring in more.

HISTORY/FACTS/ISSUES:

Mayor & Council,

CS/CS/SB 774 requires elected mayors and elected members of the governing body of a municipality, as well as candidates for such offices and members of the Florida Commission on Ethics, to file an annual full disclosure of financial interests (Form 6), beginning January 1, 2024. These individuals are currently required to file simple financial disclosures (Form 1).

The additional financial disclosures were opposed by several lobbying entities including the Florida League of Cities. Form 6 requires more in-depth disclosures of all income and financial interests of an elected official or political candidate. Part of the opposition was that this requirement would discourage candidates from participating especially in those communities that have volunteer elected officials.

HISTORY/FACTS/ISSUES:

Mayor & Council,

Throughout the pavilion discussion as well as some other public input and Town Council workshops there has been a lot of dialogue as to the frequency and size of the various events held in Town Square and the impact on surrounding residents. The following are some of the concerns raised by those residents:

- Parking
- Noise
- Non-Windermere Residents

In order to assist those surrounding residents, Town Staff has met and are looking for ways to try to minimize those impacts to those households.

- Possibility of reducing the size, frequency, and scale of the Food Truck Events
- Ensuring that the entertainment is strictly adhering to the noise ordinance. (All events)
- Working with Windermere PD on the possibility of adding additional off duty for those nights. (All events)
- Eliminated Food Trucks for the months of June, July, and August. Additional months can be considered.
- Any additional events over 1000 attendees will need to submit a Special Event Permit and have a Public Outreach/Work session prior to going to Town Council for approval.
- Public Works purchased signage to identify areas where no parking is allowed. (All events)

- Staff continues to look for additional areas where parking can be accommodated.

Staff will continue to work with those residents surrounding Town Square but would like some additional guidance from Town Council relative to these events.
