3. ADJOURN

THE TOWN OF
Windermere

LOW LEVEL LIGHTING

WEST 5TH AVENUE PARKING LOT

HISTORY/BACKGROUND

- Windermere and the various Town committees do a fabulous job with events within the Town Square. Some of the most well-attended events occur at night. Parking options within the Town for these events are at a premium.
- Town Administration has received feedback from event attendees who like to use the parking lot at West 5th Ave that it is very dark in the evening and it can be difficult to see.
- Staff looked into receiving proposals to place low-level lighting within this parking lot.
- Area is confined behind a thick, tall hedge this soft, low lighting should not be intrusive to residents near the parking lot.

BOLLARD LIGHTING FACTS

Bollard lights are short outdoor lighting fixtures mounted in the ground, standing between 24 and 52 inches tall.

A light bollard's low profile creates less light intrusion than sconces or standards on nearby buildings.

THE TOWN OF
Windermere

WHY USE LOW-LEVEL BOLLARD LIGHTS?

- Illumination and aesthetic function
 - Soft but not excessive light and guiding the way for people.
- Less lighting pollution
 - Provide ground-level lighting without dazzling or offending visual experience for drivers and pedestrians
- Ensure Safety
 - Act as a barrier to separate pedestrians and drive areas, protecting both pedestrians and drivers.
- Assist in reducing crime
 - Lights emitted by bollard lights can be a deterrent to thieves and looters
