EXHIBIT A

TO ORDINANCE 2023-02

WINTERMERE DOWNTOWN PROPERTY DEVELOPMENT AGREEMENT

This **Wintermere Downtown Property Development Agreement** (the “Agreement”) is entered into as of the Effective Date (as defined in subsection 4.g below) by **Wintermere Downtown Property, LLC** and **V3 Capital Group, LLC** (collectively known as the “Owner/Developer”), and the **Town of Wintermere, Florida**, a municipal corporation chartered and operating under the laws of the State of Florida (the “Town”).

Whereas, the Owner/Developer is the owner of fee simple title to six separate parcels of real property located within the Town of Wintermere, Orange County, Florida totaling approximately 2.17 acres, as more particularly described and depicted on **Attachment A** hereto (the “Property”).

Whereas, On June 8, 2021, the Town Council adopted Ordinance 2021-01 for the approval of the Planned Unit Development (“PUD”) zoning and Preliminary Development Plan (“PDP”) of the Property for a project to be known as Wintermere Downtown Property (the “Project”). The Project is a mix of commercial, office, and restaurant uses. Ordinance 2021-01 includes conditions for the development of the PUD and requires the Owner/Developer to submit a Final Development Plan/Major Development Site Plan for approval by the Town Council.

Whereas, as required by Ordinance 2021-01, the Owner/Developer has submitted to the Town an application, dated May 2, 2023, for approval of the Final Development Plan and Major Development Site Plan for the Project.

Whereas, the Owner/Developer intends to develop the Property for the Project, as more particularly described and depicted on **Attachment B** hereto, prepared by Kimley-Horn and Associates, Inc., dated July 11, 2023, and building and screen wall design plans prepared by Scott+Cormia Architecture and Interiors, LLC, dated July 27, 2023, as may be amended by Town Council (the “FDP”).

Whereas, the Town’s Development Review Board (“DRB”) and the Town Council for the Town of Wintermere (the “Town Council”) have reviewed the Project as proposed by the Owner/Developer, after appropriate public participation, have determined the conditions, restrictions, and requirements that are needed or useful to ensure that the Project (i) is appropriate to the Town and its history, character, and nature and (ii) does not result in adverse impacts to its residents and taxpayers.

Whereas, the Town and the Owner/Developer now desire to set forth the entitlements, terms, conditions, requirements, and restrictions negotiated by the parties as part of the PUD zoning and Major Development Site Plan for the Property and the Project.

Now, therefore, the Town and the Owner/Developer agree as follows:

1. **Recitals.** The above recitals are true and correct and are incorporated herein by this reference.

2. **Development of the Property.** The Owner/Developer is entitled to develop the Project on the Property. However, development of the Property must conform to and may be undertaken only in accordance with all of the following:

- a. The “Construction Plans for Windermere Downtown Property” prepared by Kimley-Horn and Associates, Inc., dated July 11, 2023, and building and screen wall design plans prepared by Scott+Cormia Architecture and Interiors, LLC, dated July 27, 2023, as may be amended by Town Council, attached hereto as **Attachment B** (the “FDP”); and
- b. This Agreement.

All development of the Property must comply also with all other applicable federal, state, county, and Town laws, ordinances, and regulations, which are incorporated herein by reference, except to the extent the applicable laws, ordinances, and regulations are expressly waived or modified by this Agreement, or by action expressly approved by the Town Council.

3. **Contract Between the Owner/Developer and the Town.** The uses, densities, and intensities, and all conditions of approval of the PUD zoning and FDP for the Property and the Project, have been negotiated and agreed to by the Owner/Developer and the Town. The FDP and this Agreement, collectively constitute a contract (the “Contract”) between the parties. The Owner/Developer and the Owner/Developer’s successors in interest have the contract right to develop, occupy, and use the Property with the uses, densities, and intensities set forth in the FDP and this Agreement, subject to the restrictions, requirements, and conditions set forth in the Contract, and neither the Owner/Developer nor the Town shall have the right to rezone or downzone the Property, or otherwise alter the uses, densities, and intensities, or to delete, waive, or amend any condition, requirement, or restriction, except through a written amendment to the PUD, FDP, and this Agreement that is negotiated and expressly approved by both the Owner/Developer and the Town Council. The parties expressly acknowledge that neither oral agreement nor course of action shall act to amend the Contract between the parties, and this section constitutes material inducement and material consideration for each party in electing to enter into this Agreement.

4. **Development-Related Conditions of Approval.** Development of the Project may be undertaken on the Property, but only in compliance with the following conditions, requirements, and restrictions:

- a. **Payment for Transportation Improvements.** The Owner/Developer shall pay to the Town \$47,000.00 to be used by the Town to pay the cost of transportation improvements to address the impacts of the Project (the “Transportation Improvement Fee”). On or before the date that the first Certificate of Occupancy is issued for the Project, the Transportation Improvement Fee shall be paid to the Town. The Owner’s payment of the Transportation Improvement Fee shall fully satisfy all transportation mitigation, concurrency, impact fee, proportionate share and/or any other transportation fee due to the Town for development of the Project on the Property. The Town intends, but shall not be required, to utilize the Transportation Improvement Fee for future improvement to the round-a-bout at Main Street and E 6th Avenue and install a signalized pedestrian crossing at Oakdale Street and E 6th Avenue.

b. Utilities Agreement.

(i) **Potable Water.** The Owner/Developer shall connect to potable water services from Orange County Utilities. The Owner/Developer is responsible for the full cost, including design, permitting, and construction, for any potable water line extension, improvements, or other change to the potable water system for connection of the Project to Orange County Utilities potable water service. The Town has no responsibility nor obligation for any costs. If any construction is required within any Town maintained right-of-way, then the Owner/Developer shall obtain a right-of-way permit from the Town's Public Works Department prior to the commencement of any work in the Town's right-of-way. Prior to approval by the Town of the site development permit, the Owner/Developer must submit to the Town all approvals from Orange County Utilities for connection to their potable water service.

(ii) **Wastewater.** The Owner/Developer shall utilize an onsite wastewater disposal system permitted by the Florida Department of Health (aka Orange County Health Department). The Town has no responsibility nor obligation for any costs. Prior to approval by the Town of the site development permit, the Owner/Developer must submit to the Town all approvals from the Florida Department of Health (aka Orange County Health Department).

(iii) **Stormwater.** The Owner/Developer shall design, construct, and maintain a stormwater management system consistent with the requirements of the South Florida Water Management District and the Town. The Town has no responsibility nor obligation for any costs. It is acknowledged that the Project qualifies for self-certification for stormwater management under Section 403.814(12), Florida Statutes. Prior to approval by the Town of the site development permit, the Owner/Developer must submit confirmation that the statutory required electronic submission of the self-certification was provided to the South Florida Water Management District or the Florida Department of Environmental Protection. The Owner/Developer is required to assure the proper maintenance and operation of the stormwater management system at all times. Prior to Town approval of the site development permit, the Owner/Developer must provide a maintenance plan to the Town for the portions of the stormwater management system comprised of pervious pavement materials to assure its proper operation. Also, if it is determined at any time by the Town that the Project's stormwater management system is not properly operating and resulting in negative offsite impacts, then the Owner/Developer shall correct the deficient operation as directed by the Town or other applicable regulatory agency.

c. **Final Development Plan/Major Development Site Plan.** The final development plan/major development site plan ("FDP") and all construction shall be consistent with the "Construction Plans for Windermere Downtown Property" dated July 11, 2023, as may be amended by Town Council, subject to the following conditions, requirements, and restrictions:

(i) **Total Entitlements.** The gross floor area for buildings in the Project shall not exceed, in the aggregate, 19,575 square feet. For purposes of calculating gross floor area, areas used for permanent outside dining shall be deemed to be part of the gross floor area.

(ii) **Permitted Land Uses.** The Property may be used in accordance with the following:

Permitted Uses. The uses of land in the Project are limited to:

- Business and professional offices;
- Government offices and related ancillary uses;
- Bank and financial institutions;
- Churches and related ancillary uses;
- The following personal services: barber shops, beauty shops (but not tattoo or body-piercing shops), personal training, spa, salons, pottery shops, art-painting galleries or studios, and dance studios;
- Restaurants, bakeries, coffee shops, and similar food or beverage services (drive-through-window services are prohibited). The sale or onsite consumption of alcohol is subject to the requirements of Article VI, Town Code of Ordinances;
- The following light-retail uses: bicycle shop, hardware store with no outdoor storage, home-decor shop, florist shop, clothing store, specialty-fashion store, jewelers, bookstore, household goods and services shops, antiques, and pharmacies (drive-through-window services are prohibited); and
- Such other uses approved by Town Council from time to time.

Outdoor Storage and Display. The outdoor storage of any inventory, equipment, or other items is prohibited. However, a permitted retail operation within the Project may utilize the private courtyard area of the Project for the outdoor display of merchandise subject to the limitations of the Town's Land Development Code, which limit the outdoor display to only during Town sanctioned events.

Hours of Operation. Unless otherwise expressly authorized by Town Council, the offices, shops, restaurants, and other non-residential activities within the Project may be open for business only between the hours of 7:00 a.m. and 10:00 p.m. each day.

(iii) **Architecture and Site Design/Screen Wall.** The building architecture and site design, which includes the screen wall along Oakland Street

and E 6th Avenue, shall be consistent with the architectural building design and adjacent buffering intent of the Town Center Design Guidelines, as adopted in Section 3.05.00, Town Land Development Code, and as approved by the Town Council with the FDP. During the building permitting for the structures, minor adjustments may be made to the proposed building façades that maintain consistency with the design intent of the Town Center Design Guidelines and approved by the Town Manager.

(iv) **Dumpster Enclosure.** The dumpster shall be screened from view by an enclosure. The dumpster shall have a lid that is to be closed at all times except when garbage is added or removed. No loose garbage shall be placed in the dumpster enclosure.

(v) **On-Site Parking.** At least 79 on-site parking spaces with a minimum dimension of 18.5 feet long by 9 feet wide shall be provided with the Project, as shown on the Town Council approved FDP. For the parking spaces that are shared with the Project's loading zone, the Owner/Developer shall provide appropriate signage in the loading zone to assure the proper coordination of loading/unloading times and general parking times. Prior to the placement of the signage in the loading zone, the Owner/Developer shall submit the proposed signage to the Town to assure its consistency with the design of the Project.

(vi) **Tree Mitigation and Protection.** The Owner/Developer shall follow the tree mitigation and protection plans as provided in the approved FDP. The Owner/Developer shall comply with Sections 5.01.00 through 5.01.18, Town Land Development Code, for the protection of trees during development based on the American National Standards Institute (ANSI) A300 series requirements. The Owner/Developer shall engage and retain the services of a Professional Florida Certified Arborist during the construction of the Project. The Professional Florida Certified Arborist shall assure that appropriate actions are taken by the Owner/Developer to properly protect and maintain the trees that are identified to be protected and to assure the proper removal and mitigation for trees that are approved to be removed. The Town may engage its own Professional Certified Arborist to also oversee the Project and assure compliance with the requirements of the approved tree mitigation plan. The Owner/Developer shall reimburse the Town for the cost of the services of the Town's Professional Certified Arborist.

The Developer/Owner agrees to donate to the Town 151 inches, Diameter at Breast Height (DBH), of replacement trees to mitigate for the removal of 151 inches DBH of trees from the Property, as shown on the Town Council approved FDP. As required by Section 5.01.12, Town Land Development Code, each replacement tree must be a type that will attain an overall height at maturity of at least 15 feet with a DBH of at least four inches, and shall be a minimum of height of at least eight feet with a DBH of least 2 inches at time of planting. The type of tree shall be indigenous to the State of Florida and be listed as an approve tree in the Town Center Design Guidelines or in Section 5.01.18, Town Land Development Code. The Town shall plant the donated trees in Town right-of-way or other Town

properties with the review and recommendation for their location by the Town's Tree Board.

As required by Section 5.01.12, Town Land Development Code, if any of the existing protected trees or new trees planted by the Owner/Developer as part of the landscape plan with the approved FDP are deemed by a Florida Certified Arborist to be dead or beyond recovery, hazardous, or deteriorated, then the Owner/Developer may remove the tree but must replace the removed tree with a new tree planted on site and meeting the same standard for replacement trees in the previous paragraph. The Town reserves the right to engage its own Florida Certified Arborist to confirm the condition of the tree.

(vii) **Site Lighting.** All light fixtures on the Property shall be fully shielded to prevent light and glare from radiating either skyward or beyond the boundaries of the Property.

(viii) **Construction Management.** The Town Council finds that the following construction management requirements are intended to eliminate, as much as possible, the nuisance to Town residents and visitors that might otherwise result from the sights, sounds, dust, and debris from the construction of the Project.

The following requirements and restrictions shall apply to construction activity on the Property:

Construction Staging and Screening — Construction staging (e.g., construction trailers, vehicles, and equipment, material storage, construction-worker parking, construction dumpsters, temporary restrooms, etc.), shall be contained within the boundaries of the Property. During all construction activity, the Property shall be screened to obscure view of the construction site throughout all phases of construction. No signs, advertising, or other communications (other than signs pertaining specifically to construction safety) may be placed on the exterior of the screening.

Construction Staging and Screening — Subsequent Construction, Reconstruction, and Renovation. Staging areas for construction, reconstruction, or renovations occurring from time to time after completion of the Project shall be at such locations as may be approved in writing by the Town Manager. Under no circumstances may the staging occur within public rights-of-way or on Town property without the express approval of Town Council, which may be granted or withheld at the discretion of the Town Council. During all construction activity, the Property shall be screened to obscure view of the construction-staging area site throughout all phases of construction. No signs, advertising, or other communications (other than signs pertaining specifically to the construction safety) may be placed on the exterior of the screening.

Dust and Debris. All debris shall be retained within the boundaries of the Property throughout all construction activities. The Owner/Developer shall not allow dust to escape in material amounts, as determined by the Town Manager,

during construction.

Road Closures. No road closures may occur in connection with the construction, unless expressly approved in writing by the Town Manager.

Construction Hours and Deliveries. Construction activity and deliveries of construction materials and equipment for the Project to the Property may only occur between the hours of 7:00 a.m. and 7:00 p.m., Monday through Saturday, unless approved otherwise expressly and in writing by the Town Manager.

Stormwater Retention and Erosion Control During Construction. The Owner/Developer shall take such steps as are necessary or useful to ensure that, at all times during construction, all stormwater from rainfall, up to at least one inch per storm, is retained within the boundaries of the Property and not discharged offsite and appropriate mitigation is provided to maintain proper erosion control during construction. The Owner/Developer shall follow the stormwater and erosion control plan compliant with the requirements of the National Pollution Discharge Elimination System (NPDES) approved with the FDP. All stormwater and erosion control measures must be installed prior to the initiation of any site clearing, demolition, or construction activity on the Property.

Construction-Site Security. The Owner/Developer shall provide a reasonable level of security on the Property throughout the construction period to prevent trespass, theft, bodily injury, and other undesirable occurrences. If, after consultation with the Town's Chief of Police, the Town Manager determines that additional security is needed, the Owner/Developer must provide it at their own cost.

Enforcement. Material violations of these requirements and restrictions, as determined in the reasonable judgment of the Town Manager, may result in the issuance by the Town Manager of a stop-work order. Upon such issuance, the Owner/Developer shall halt all construction immediately and correct the violation. Construction may be resumed only upon notification to the Owner/Developer from the Town Manager that the violation has been corrected, and the Town Manager shall issue such notice immediately upon correction thereof. The Town shall have such other remedies (other than an action for damages) as allowed by law and equity to enforce the provisions of these conditions, including (but not limited to) withholding building permits and certificates of occupancy.

5. Miscellaneous.

k. **Time Limit to Commence Construction** The Owner/Developer has eighteen months from the Effective Date for the Project to commence substantial construction of the Project. The Town Council may grant successive one-year extensions if the Owner/Developer makes a written request to the Town Manager prior to the applicable expiration date, provided that the plans still comply with the then current Land Development Code. In the event this time period expires and/or no extension is approved, the Town Council has the right at its discretion either to terminate this
