

1. Can Windermere supply a list of bidders and/or plan holders?
  - a. Yes, the plan holders list has been uploaded to the Town's website and on Demandstar
2. Can Windermere supply a spec and/or source for the shell road base material to be used?
  - a. Yes, the supplier is J McKinnon Development. Contact: Billy Montgomery: (407) 601-3955: 1505 E. Robinson St., Orlando, FL 32801
  - b. Specs are uploaded to the Town's website and to Demandstar
  - c. Additional material details:
    - The existing dirt road shall be excavated for a minimum depth of 6 inches for the entire width of the road
    - The Shell Base for Pavers material shall be installed at a minimum depth of 6 inches to meet the finished grades shown in the plans
    - The maximum lift for installing the Shell Base for Pavers material is 6 inches for one lift in dry weather conditions and two 3 inch lifts in wet weather conditions
    - If more then 6 inches of the Shell Base for Pavers material is required to meet the finished grades, use 4 inch lifts as needed
    - Roll with heavy traffic roller between each lift and on the final lift
3. It appears that all sodded areas receive the plastic erosion mat under it? Please verify that is correct & supply a specification or source of mat material to be used.
  - a. Yes, the sodded areas will get the erosion mat. The FDOT spec for the plastic erosion mat has been uploaded to the Town website and Demandstar
4. Please supply a specification for the brick pavers to be used.
  - a. The contractor is required to match and replace the existing brick paver driveways in kind. The FDOT spec for architectural pavers has been uploaded to the Town website and Demandstar.
